

City Founder's Name Given to New Library

An attractive new branch library will be opened to the public today at 3520 West Sixth street. The new library, the forty-eighth branch in the system, is called Felipe de Sola in honor of the founder of Los Angeles.

The building, designed by Architect Whitley in Mediterranean style, was erected at an approximate cost of \$40,000. It is of light construction with red tile roof. Above the doorway is the library seal worked out in colored tile. The interior is a high-ceilinged room with fireplace at one end, and the arched windows overlooking the Lafayette Park and five connecting arches opposite. Two alcoves will be filled with book stacks. The walls are rough stucco and the ceiling is finished in natural wood.

The library will be open on Monday morning with an all-new book collection ready for circulation. Mrs. Juan I. Cavanaugh, who has for many years been librarian of the Central square library, has charge of the new branch.

MELLON DENIES AIDES TO QUIT

Layman and Doran Given Full Indorsement

Rumors of Dry Men's Ouster Branded as False

Both Praised Highly for Successful Labors

WASHINGTON, July 1. (Exclusive)—Seymour Layman, assistant secretary of the Treasury in charge of customs, prohibition and coast guard operations, has the full support of Secretary of the Treasury Mellon in his enforcement policies. Secretary Mellon made this clear today in formally denying printed reports that the dry men together with Prohibition Commissioner James M. Doran are to be discharged shortly by President Hoover.

"My attention has been called to various statements appearing in the public press to the effect that Assistant Secretary Layman and Commissioner Doran contemplate resigning at an early date," Mr. Mellon said in a signed statement.

"There is no truth in these reports, and there are no facts to justify the circulation of rumors of this character which do an injustice to two gentlemen who are performing a difficult task with a high degree of ability and devotion and who have in full measure my confidence and support."

As the White House also vigorously denied the rumors that Layman is to be ousted, it now appears the assistant secretary together with Mr. Doran will stick in the prohibition saddle until the President's dry reorganization plans are complete.

MORE CANADIAN LIQUOR STORIES DENIED

DETROIT, July 1. (AP)—A report made today to Canadian authorities that United States customs border patrol officers fired on a rum-runner's boat on the Canadian side of the Detroit River Friday was denied tonight by Walter S. Petty, acting collector of customs here.

Petty characterized the report as "one of a well-planned campaign of bootleggers' propaganda" and said no boat of the United States run patrol had entered Canadian waters in the past week. He also denied a report that customs officers raided export docks at Port Lambton, Ont., and cut loose rum-runners.

Protest against the reported shooting was made today by H. B. Jackson, assistant to the chief collector of customs of the Canadian government. Jackson said on one occasion, a Windsor (Ont.) exporter whom he refused to name, told him that thirteen bullets struck the fast rum boat, although its occupants were uninjured.

BARBED-WIRE FENCE RUMORS SNAGS LONDON PAPER

LONDON, July 1. (AP)—Reports of a proposal by American prohibitionists to erect a barbed-wire fence along the Canadian-American border disturbed the Evening News today, the London Newspaper apparently believing there is some basis for the suggestion.

"If it were erected Canada would be bound in her own interests to protest," the Evening News said. "International custom does not now require the Canadian government to prevent rum running, because the sale of liquor is not generally recognized as an offense in Canada."

"On the other hand, the destruction of a barbed-wire fence is an offense in all civilized countries and if the United States called on Canada to prevent 'conspiracies' to destroy a barbed-wire fence, which, of course, the bootleggers would have neither difficulty nor hesitation in doing, a new and delicate situation would arise."

"The only certain thing is that a barbed-wire fence would cause little trouble to rum runners, whatever it might cause to the government concerned. But the lesson of thousands of years of history is that laws unsupported by the moral or political conviction of the community cannot effectively be enforced by artificial means."

DRINKING OF LIQUOR HELD NOT ILLEGAL

Appeals Court Rules in Death of Insured Man from Wood Alcohol

ASHEVILLE (N. C.) July 1. (AP)—No law is violated by a person consuming liquor at the invitation of the owner, the United States Circuit Court of Appeals ruled today in an opinion handed down in the case of Zurich General Liability Insurance Company, Ltd., of Switzerland, appealing from a judgment obtained against it by Mrs. G. A. Flickinger of Norfolk, Va.

Judge Parker of Charlotte affirmed the decision of the District Court at Norfolk, Va., which ruled that she should collect on an insurance policy held by her son, S. P. Flickinger, who, it was agreed, died from drinking wood alcohol served in gin cocktails to him by friends. The young man, his fiancée and the wife of his host died from the cocktails.

The insurance company contended their duty was to the negligence of the insured, who had violated the prohibition law.

CRUSADER DRAFTS ANTINEAR-BEER LAW

DES MOINES (Iowa) July 1. (AP)—A motion picture law barring sale and transportation of beer, regardless of alcoholic content, is being drafted by John B. Hammond, dry crusader, for introduction in the legislatures of all States. The work is being done, Hammond said, on behalf of the National Civic League, with which he is connected.

POLSON INMATES ON ROAD

SACRAMENTO, July 1. (AP)—For the first time in three years, convicts from Polson State prison will be engaged this week in State road building. A group of nineteen convicts left the prison reservation this morning for Road Camp No. 19, near Gen. Grant Park, Fresno county.

two that he heads, as a basic prerequisite to improved marketing conditions for perishable farm products. He takes to the neck Farm Board a knowledge of co-operative marketing from the viewpoint of a man who has spent almost a lifetime in daily contact with the difficulties of co-operation as well as its advantages in selling crops profitably.

COMPLETION OF TASK EXPECTED DURING WEEK

WASHINGTON, July 1. (AP)—One week from today—if President Hoover has his way—the Federal Farm Board will be a fact.

He has filled three of the eight posts. Of the three others offered appointments, one said today he has notified the President he will accept for one year and Mr. Hoover hopes to have definite replies from the other two within twenty-four hours. He expects to complete the board's personnel by the week-end.

STATE PROFITS ON HOME BREW

Tennessee Malt Extract Tax Yields \$15,000 in First Month

NASHVILLE (Tenn.) July 1. (AP)—The first month's revenue from a tax levied on malt extract for the avowed purpose of "making the home-brew industry pay" has yielded the State of Tennessee \$15,000.

Experts in the State Department of Finance and Taxation, who say their data show that virtually all of the malt extract sold went into "home brew," today made public figures showing the sale of 300,000 pounds of malt extract in June. This was the first month of the new law's operation.

Mr. Melton said in a signed statement, "There is no truth in these reports, and there are no facts to justify the circulation of rumors of this character which do an injustice to two gentlemen who are performing a difficult task with a high degree of ability and devotion and who have in full measure my confidence and support."

As the White House also vigorously denied the rumors that Layman is to be ousted, it now appears the assistant secretary together with Mr. Doran will stick in the prohibition saddle until the President's dry reorganization plans are complete.

COMPLETION OF TASK EXPECTED DURING WEEK

WASHINGTON, July 1. (AP)—One week from today—if President Hoover has his way—the Federal Farm Board will be a fact.

He has filled three of the eight posts. Of the three others offered appointments, one said today he has notified the President he will accept for one year and Mr. Hoover hopes to have definite replies from the other two within twenty-four hours. He expects to complete the board's personnel by the week-end.

Charles C. Teague, prominent in California agricultural co-operatives, said today in Santa Paula, Cal., that he has informed the President he is willing to serve a year. The White House declined to say whether such an arrangement will be satisfactory.

W. S. Moscrop of Lake Elmo, Minn., and Alexander H. Legge, of Chicago, are those from whom early word is expected.

Those who have accepted membership on the board are James C. Stone of Kentucky, C. B. Denman of Missouri, and Carl Williams of Oklahoma. Stone will represent tobacco, Denman will represent industry and Williams the cotton growers.

Teague is identified principally with the fruit industry. Moscrop with dairying and Legge would represent general business interests.

If Teague, Moscrop and Legge are available, two places on the board will remain to be filled. As yet the President has appointed no one to represent the wheat industry. It is expected that the eighth place will go to one experienced in the field of banking and finance, as Mr. Hoover announced when he signed the farm bill that such a man would be appointed to the board.

GUARDSMEN PROMOTIONS ANNOUNCED

Maj. Charles R. Blood Made Lieutenant-Colonel of 185th Infantry

SACRAMENTO, July 1. (AP)—Promotions for several officers of the National Guard as result of the formation of the One Hundred Eighty-fifth Infantry in San Joaquin and Southern California were announced by Adj. Gen. R. E. Mitchell today.

Maj. Charles R. Blood of the One Hundred Eighty-fourth Infantry, Sacramento, is to be promoted to the rank of lieutenant-colonel and appointed executive officer of the organization.

James B. Pitts, Fresno, lieutenant-colonel in the reserve, is attached to the National Guard regiment with the same rank.

Corp. Phillip Wilson, Fresno, of the Howitzer Company, One Hundred Eighty-fourth Infantry, is made a second lieutenant of infantry.

The following promotions of officers in Los Angeles organizations were announced also: Sergt. John W. Boyd, headquarters company, One Hundred Sixtieth Infantry, is made second lieutenant; Sergt. William W. Burgess of the headquarters company is promoted to first lieutenant; William W. Burgess of the headquarters company is promoted to first lieutenant; William W. Burgess of the headquarters company is promoted to first lieutenant.

The building up of her trade lanes, both within and without the borders of the mainland, the restoration of the morale and the health of her people and the reconstruction of her financial structure become matters in which the Allied nations of war days now are vitally concerned. In the exact proportion in which Germany thrives the creditor nations profit in the solvency of reparations payments.

Obviously it is to the interest of the creditor nations that war does not play a part in the reconstruction of Germany. Hence she will be free to devote all her energies to the task of building, developing and expanding.

DEFINITE TERMS

There will be no outside considerations to detract or dissipate her activities, other than the payment of the war debt. And this, as Herr Busch explained, has been reduced. In the Young plan, to terms of definiteness considered eminently fair by Germany, as well as the plan in its entirety being considered eminently fair by the nation's representatives at the reparations discussion.

In addition to which the terrific normal drain of the military establishment now is removed. It is thought not unlikely by Herr Busch that even the original Versailles Treaty may not be maintained. Such a thought, he explained, is individual and comes from him not as an executive of the German capital.

GERMAN OFFICIALS VISIT HEALTH SPAS

BERLIN, July 1. (AP)—Chancellor Mueller left for Bad Mergentheim today, a four to six months treatment for rheumatism from which he has been ill several weeks. Foreign Minister Stresemann also will leave tonight for a brief vacation in Baden-Baden.

BOLIVIAN PRISONERS TO BE REPATRIATED

ASUNCION (Paraguay) July 1. (AP)—Repatriation of Bolivian prisoners taken during the recent fight in the Chaco region has started with their departure for Concepcion, where they will board the gunboat Triumph, bound for Cuzco.

A.A.A. FOSTERS MOTOR TAX QUIZ

Convention Plans Study by National Committee

More Federal Aid for Roads Sought at Session

Educational Campaign Urged to Curb Accidents

(Continued from First Page)

BUFFALO, July 1. (AP)—At the conclusion of its afternoon session today the twenty-seventh annual convention of the American Automobile Association had adopted what the delegates regarded as the strongest platform of motorizing policies ever formulated by that body.

One resolution called for the appointment of a national committee to study the question of motor-vehicle taxation, with particular reference to the tendency to increase the gasoline tax and the growing practice whereby motor-vehicle taxes are diverted to other than road purposes.

MORE FEDERAL AID

Other matters included in the platform are traffic safety, more Federal appropriations for highways, more effective State and municipal regulations of the sale of gasoline and oil, a cooperative national effort to maintain the beauty of the highways and prevent the encroachment of unsightly advertising, and a demand that innocent users of highways must be protected, no matter what the exigencies of law enforcement may be.

The convention declared itself in favor of an immediate increase in Federal aid appropriations from \$75,000,000 a year to \$125,000,000 a year; also declared that the Federal government should assume the obligation for the building of highways through its own land in the West and Far West, and asked that appropriations for forest roads be increased from \$7,500,000 to \$12,500,000.

SHORT MEASURE COSTS

The resolution on gas and oil cited the fact that short measure sales now carry an annual toll of \$30,000,000 of the consumer's pocket.

New weights and measures laws where they do not exist now, and sufficient appropriations to make effective enforcement of such laws, were also adopted.

Citing that motor-vehicle fatalities increased 29 per cent for the entire country in the period from 1924 to 1928, the association pointed out that education in the field of highway accidents and urged the incorporation of safety education in the curriculum of all public and private schools, and the establishment of school-boy patrols in all cities, towns and villages.

In connection with highway beautification, the A. A. A. resolution cited the fact that already forty-one States have adopted laws regulating the erection of commercial advertising signs on public highways. The resolution adopted by the convention pledges the full co-operation of the A. A. A. and its affiliated clubs in the preservation of roadside beauty and the fight against unsightly encroachments.

GERMAN DEFEAT PROVES VICTORY

(Continued from First Page)

equal to \$217,528,950. This, of course, was on a peace-time basis. Simple arithmetic discloses that the peace-time reparations plan cost nearly one-half what the average annuities will be in reparations payments, providing the Young plan is adopted as is expected.

But simple arithmetic does not show what the economic depreciation of the German nation as a whole will be while the reparations payments are being made. Any computation on that basis naturally has to be an estimate, but the moral and business world in the minds of Herr Busch and other civic executives like him, will more than offset the actual monetary discrepancy.

For instance: Reduced to plain language, Germany's great creditor nations, the United States, Great Britain, France, Belgium and Italy, now are the position of taking direct interest in Germany's economic readjustment. The building up of her trade lanes, both within and without the borders of the mainland, the restoration of the morale and the health of her people and the reconstruction of her financial structure become matters in which the Allied nations of war days now are vitally concerned. In the exact proportion in which Germany thrives the creditor nations profit in the solvency of reparations payments.

Obviously it is to the interest of the creditor nations that war does not play a part in the reconstruction of Germany. Hence she will be free to devote all her energies to the task of building, developing and expanding.

DEFINITE TERMS

There will be no outside considerations to detract or dissipate her activities, other than the payment of the war debt. And this, as Herr Busch explained, has been reduced. In the Young plan, to terms of definiteness considered eminently fair by Germany, as well as the plan in its entirety being considered eminently fair by the nation's representatives at the reparations discussion.

In addition to which the terrific normal drain of the military establishment now is removed. It is thought not unlikely by Herr Busch that even the original Versailles Treaty may not be maintained. Such a thought, he explained, is individual and comes from him not as an executive of the German capital.

COOK SHOULD KNOW BETTER

German Lark "All Hot Up" When Chef Starts to Serve French Fried

NEW YORK, July 1. (AP)—A cook who dropped cold potatoes into a pot of boiling fat started a small fire on the Hamburg-American liner Deutschland shortly after her arrival at Quarantine today.

The fat flared up and the flames leaped into the mouth of a ventilator. Fed by baked grease on the lining of the ventilator the blaze swept along to the exit on the post deck and leaped fifty feet into the air.

The fire was extinguished by the liner's fire-fighting force in about ten minutes. All the 380 passengers were up and dressed and there was some excitement.

UNION HEAD WIRES AID TO EQUITY

President of Federation Links State Bar Ruling to Actor Situation

WASHINGTON, July 1. (Exclusive)—Aggressive support of the campaign of the Actors' Equity Association to organize the actors engaged in the motion-picture industry has been announced by William Green, president of the American Federation of Labor. In a telegram to Frank Gillmore, president of the Actors' Equity Association, who is in Hollywood, President Green says:

"Modern industrial and economic life have wrought such changes in human relationships as to make the individual impracticable and helpless so far as protection of living standards as you do, an age of mass production, mass action and organization. Co-operation, co-ordination and collective action are the primary requirements in all human enterprises and undertakings."

"More and more, it becomes evident that the individual is dependent upon the individual for success. There is a manifest interdependence among all groups, social, professional and economic. No where is this fact more clearly demonstrated than in the legal profession of California. All attorneys must be members of the bar association before they can practice law in this State. The lawyers of California know that an organization of this kind is essential to individual and collective success. You and those for whom you speak are in a position to do an old and honorable profession restrictive of individual liberty, require and need an organization as perfect and as complete as it can be made in order to maintain high ethical and artistic standards."

"Your need of organization is even greater than that of the members of the bar association. With these reasons facts apparent, it is difficult to understand why your organization is confronted with open hostility and determined opposition from those who know the value of organization and who claim the exercise of that right for themselves. But even though you may be a 'minority' in the industry, you are ultimately, you will win because your cause is just. You can rely upon the American people to sustain and support you."

DEATHS LAID TO REFRIGERATORS

(Continued from First Page)

the jury, which was headed by Dr. Morris Fishbein, editor of the Journal of the American Medical Society.

Anthony Hoessel, chief engineer for one refrigerator company, said his firm's refrigerators, using methyl chloride gas, are in use in 15,000 Chicago homes. Asked whether he had ever heard of one of the machines leaking gas, he replied: "Never, and it is the first instance I know of where methyl chloride gas was blamed for a single death. Our men are constantly exposed to its fumes and all of them are very healthy."

Prof. Gideon Wells, head of the pathology department of the University of Chicago and a member of the Coroner's jury, then interposed:

"Did it occur to you that a small quantity of the gas might be denser than a concentrated amount?" Hoessel said he was not an expert chemist and could not answer. One refrigerator-company official said direct expansion refrigeration by use of gas is rapidly being substituted for use of brine in automatic freezing machines because of economy in construction. He said there are about eight gaseous refrigerants but that opinions differ as to their lethal possibilities.

Dr. Keel announced he will seek an ordinance affording absolute control over noxious gases and poisons used in refrigerating plants. He said he will ask that such gases be either eliminated from use or blended with some other gas making possible detection by visibility or odor.

HIT-RUN VICTIM DIES

OAKLAND, July 1. (AP)—Joseph Zanolis, 62 years of age, Livermore rancher, died here today, the victim of a hit-run motorist. Zanolis was struck by a speeding automobile as he walked on the highway near his home last night.

MINISTRY OF TANAKA FALLS
Japan's Conservative Cabinet Tenders Resignation
Delayed Kellogg Peace Pact Signing Partly Cause
Liberal Leader Summoned by Emperor
TOKIO, July 2 (Tuesday) (AP)—Baron Tanaka, Premier of Japan for the past two years, tendered the resignation of his Conservative Cabinet to Emperor Hirohito at the Imperial Palace today.
Yugo Hamaguchi, Liberal Minister leader, was summoned to the palace shortly after the Emperor had received the Baron.
Prince Seijun, former Premier and one of the "Genro" or so-called Elder Statesmen, also was summoned, presumably to advise His Imperial Majesty with regard to a new Cabinet.
The foreign policy of the Conservatives is chiefly responsible for ending their tenure of office. Criticism has been bitter in the Diet and in the nation of the government's procedure in handling signature of the Kellogg peace pact. The recent investigation of the assassination of Marshal Chang Tso-Lin at Mukden last year brought the situation to a crisis. Commercial circles were optimistic as the prospect of a Liberal Cabinet pledged to retrenchment of expenditures and removal of the gold embargo. This optimism was shattered by a rise of five-eighths of a point in the New York rate on Tokyo and a farthing in the London rate yesterday. The market closed weak.
In the investigation of Marshal Chang Tso-Lin's assassination Japanese army officers were absolved from blame for the act itself but it was insisted that certain officers be punished for failing to notify the Home Office of withdrawal of their supervision along the railway line the night the marshal was to pass that section of the line.
MILITARY ORDUATE
Gen. Shirakawa, Minister of War, protested against the idea of punishment and stubbornly refused to carry it out. In this he was supported by the army.
As regards the Kellogg peace pact, Baron Tanaka's Cabinet was criticized for allowing so much opposition to materialize against signature. This opposition was directed against the phrase "in the names of their respective peoples," which was considered to violate the prerogatives of the Emperor.
The Tanaka Cabinet took office in April, 1927, and was reconstituted in 1928.
SHERIFF IN DUEL KILLS MURDERER
Washington Officer Kicks in Door of Cabin, Dodges Bullet and Slays Man
SPOKANE, July 1. (AP)—Sheriff Floyd Brower of Spokane county today kicked in the door of the cabin where Jack Rowden, wanted for murder, had barricaded himself, dodged a bullet that hummed past him, and shot Rowden dead.
Brower had rushed to Rowden's cabin near the Canadian border in the Metairie Falls region with machine guns and tear bombs, after officers had pursued Rowden in his shack following the murder last night of Harry Friedlund, a miner, near Metairie.
Brower, assisted by officers from Newport, Wash., and citizens had encircled the cabin after the shooting. Rowden, alias "Black Jack MacDonald," went there immediately after the killing. Friedlund was shot when he stopped his car to offer Rowden a ride. Officers believe ill feeling between Ray Perkins, Friedlund's companion, and Rowden, caused the crime.
Rowden, summoned by Sheriff Ben Fox of Newport to surrender, yelled back, "You are getting paid for your time and I am not. If you want me you will have to shoot it out."
Fox waited for Brower's machine gun, and when it came, it was trained on the cabin. A rain of machine-gun slugs pattered on the cabin, driving Rowden into a corner. Then Sheriff Brower rushed the door. The fugitive's single shot just missed his head, and the officer drilled "Black Jack" through the chest.
Date for Pope's Vatican Exit Set
VATICAN CITY, July 1. (AP)—Pope Pius's first exit into St. Peter's Square bearing the Eucharist has been fixed for the 25th inst., the feast of St. James the Apostle, on the occasion of the international pilgrimage of seminarians.
It will mark the first exit of a Pontiff from the Vatican territory since 1870, being made possible by the recently concluded agreement between the Holy See and the Italian state.
British to Aid Chinese Navy
NANKING (China) July 1. (AP)—A Chinese-British agreement was signed today, providing for the training of Chinese naval cadets in Great Britain and for the furnishing of the Chinese government of a British naval mission to assist in development of the Chinese navy.
It is understood the Chinese government has a comprehensive program for the building of a substantial navy and intends that some vessels will be constructed in Great Britain.
POSTMASTER NAMED
WASHINGTON, July 1. (AP)—Walter B. Luna was appointed today acting postmaster at Dallas, Tex., replacing John W. Phillips, named fourth assistant Postmaster-General.

TAX REDUCTION MOVE STARTED
Government's Surplus Causes Renewal of Agitation
Mellon Says Levy Slash Has Not Been Considered
Other Administration Chiefs Against Early Action
WASHINGTON, July 1. (AP)—Tax reduction talk sounded forth today as a surprising \$185,000,000 surplus was announced by the Treasury at the close of the government's business year, but it was only a murmur so far as administration tongues were concerned.
Asked whether there was any prospect of the Treasury recommending lowering of taxes in view of the good showing on the Federal balance sheet, Secretary Mellon said that question had not been considered. He declined to amplify his statement.
Chairman Hawley of the House Ways and Means Committee, which must originate all tax legislation, withheld an opinion as to any tax slash pending a determination of how Federal receipts keep up and expenditures can be kept down for the year's remainder. If the situation is favorable in December, he thinks one will be possible.
SHOOT AGAINST CUT
Chairman Smoot of the Senate Finance Committee, generally an administration spokesman on financial affairs, hastened to declare "nothing doing" as the cry for reduction was revived by Democrats of the committee.
Senators Simmons of North Carolina and Harrison of Mississippi, ranking minority members of the finance committee, declared the tremendous surplus sustained their contentions for greater tax relief in the last revenue measure two years ago. Both intended to press for tax reduction, but said they wanted to study the source of this year's surplus before outlining a program.
DIVERGENT VIEWS
The tax-cut discussion is expected to continue more or less steadily until December and to hinge largely on the \$185,000,000 surplus, with a resulting crystallization of the divergent views as to how a tax cut should be applied. Secretary Mellon has taken a stand for a slash next in the earned income tax, and his views are weighty with the administration.
Mr. Hawley believes the corporation levy should receive attention whenever another parring down is undertaken. A reduction in or repeal of the inheritance tax is favored by many of the legislators, but widespread opposition to such a move is certain.
LOSSES FORESEEN
Senator Smoot pointed out that the Treasury believes most of the surplus is attributable to increased personal incomes during the last year resulting from stock-market profits. He asserted that those who showed profits in stock-market transactions last year are apt to show losses this year, and warned that these losses are deductible for income-tax purposes. Therefore, he argued, what was gained by the government last year may just as easily be lost this year.
Representative Hawley warned that increased expenditures are in sight for farm relief, construction of Boulder Canyon dam in the Colorado River and for flood-control work. If these costs are met without too much strain he believes a reduction is possible.

ORIENTAL INVESTING INCREASES
American Capitalists Put \$1,000,000,000 in Projects There in Fifteen Years
WASHINGTON, July 1. (AP)—American investors are shown in Commerce Department figures published today to have invested approximately \$1,000,000,000 in oriental securities since 1914.
Exclusive of \$148,633,000 of American capital invested since 1914 in Philippine government securities, \$851,366,000 was placed in oriental securities publicly offered in the United States. About \$640,000 represented government, provincial and municipal issues.
In addition the survey shows \$147,000,000 expended in China in the same period in business enterprises, philanthropic undertakings and corporate issues not publicly offered.
Australian borrowings, which did not begin until 1921, had reached a total of \$264,000,000 at the end of 1928.
Death Claims Postal Expert
WASHINGTON, July 1. (AP)—Joseph Stewart, executive assistant to the Postmaster-General, and special assistant to the Attorney-General, died at his home here today after a lengthy illness.
Stewart, who was 70 years of age, spent nearly forty-seven years in the Postoffice Department and for a number of years had been in charge of all its statistical work as well as supervision of its legal affairs.
Reputed to know more about the department than any other man, Stewart was the adviser to many postmasters—general, and also ranked as an important figure in international postal affairs.

How to protect health after 40

One of the most common ailments after 40 can be avoided by this simple method, agree medical authorities

ONE of the most prevalent menaces to health after 40, says medical advice, is "breaking down" of kidneys. Over half of men and women past this age are afflicted in varying degree.

Kidneys excrete 75 percent of poisonous waste from the body; through overwork, they are the first vital organs to break down.

The verdict of medical science is that break-down of kidney cells is caused by congestion, through passing of poisonous waste in too concentrated form. Kidneys become clogged, throwing back into the system poisons which should be eliminated.

These with pure, mineral free water, working away the poisons, and the burden of kidneys is lightened. Thus worn cells have a chance to repair. Further break-down is averted.

Drink 6 glasses of Puritas mineral free water daily, urge doctors.

Free of deposit-forming minerals which add to congestion of kidneys, Puritas flushes these vital organs in most thorough, efficient way.

You'll note the distinctive favor of Puritas with your first glass. A "different" taste that you'll increasingly enjoy. Telephone Tlany 1861 and prompt delivery of Puritas will be made anywhere in Southern California. A Puritas icicles cooler furnished free.

TARIFF FIXERS HARK TO PLEAS

Manufacturers Come to Bat for Increases

Slovaks Seizing Shoe Trade; French Get Pipe Orders

Higher Duties Held Needed to Protect Industries

WASHINGTON, July 1. (AP)—A wide variety of commodities, ranging from shoes to cast-iron pipe, occupied three groups at Senatorial tariff revision today as they continued hearings on the House bill.

The metals and sundry subcommittees of the Finance Committee were in session all day taking testimony of more than a score of manufacturers and importers. The silk group called a dozen witnesses to testify late in the day.

Raymond V. McNamara, Haverhill, Mass., shoe manufacturer, told the sundry subcommittee the women's shoe industry in this country would be obsolete in ten years unless an adequate tariff were placed on footwear, now on the free list.

He said imports, largely from Czechoslovakia, were increasing at an alarming rate.

MUSICIAN IN CHORUS W. R. Glynn, Forest Hill Gardens, N. Y., urged an increase in the House duty on violins and musical instruments cases, while John G. Donnelly, Washington, representing importers, protested against the proposed increase from 40 to 60 percent in the rate on pipe organs.

Herbert Kennedy, New York iron importer, protested against the House increase of 10 percent in the 20 percent duty on cast iron pipe.

ON OTHER HAND

Taking the opposite view, Walter Wood, Philadelphia manufacturer, said the proposed 30 percent rate would not protect producers on the Atlantic seaboard from French imports and urged a specific duty of six-tenths of 1 cent a pound.

H. Conklin, a trustee of the Park Avenue Baptist Church of New York and its attorney, asked that cartilons be put on the free list. Cartilons under the House bill would pay a duty of 20 percent ad valorem. He said American makers cannot tune the larger bells properly and

TARIFF LOBBY CHARGES FLY

Rival Interests' Statements as to Money Spent Call for Senatorial Investigation

WASHINGTON, July 1. (Exclusive)—The tariff fight probably will have its aftermath in Senatorial investigation of charges that huge lobbies are running riot here in the battle for higher rates.

Lumber men, those with American interests solely and those with American and Canadian interests, have fallen out with resultant intimations of lavish use of money to influence tariff legislation.

The interindustry squabble just that Brattle and his associates had brought to the surface has stirred Senator Walsh, Massachusetts Democrat, who today declared he will demand that the Senate Finance Committee make a sweeping investigation as to whether these charges of lobbies are founded on fact or fancy.

LUMBERMEN RIVALS

The spirited rivalry between the lumber factions was displayed to public view when H. J. Brattle, spokesman for the lumber industry Tariff Committee, presented the Senate subcommittee on lumber schedules with evidence tending to show that American-Canadian interests had raised, through assessments, \$20,000 to fight a tariff on lumber and shingles.

This indictment brought an immediate counter-charge from Clarence L. Bahr of that organization that satisfactory cartilons can be obtained only in England and Belgium. The charge, he said, would pay a total of \$25,000 on its new cartilons.

SHOE MEN HEARD

Conditions in Haverhill, Mass., were described as "serious" today by Raymond V. McNamara, Haverhill shoe manufacturer, in urging a higher tariff on imported shoes. McNamara declared the 20 percent duty proposed in the House bill on imported shoes would bring "some relief" but added that he thought a 35 percent rate would more nearly equalize production costs here and abroad.

AUTO MEN INVITED

Senator Reed, Republican, Pennsylvania, chairman of the subcommittee on metals, has invited four prominent automobile manufacturers to appear on the 11th inst. and give their views on a proposal to lower the tariff on passenger cars and trucks.

Those invited are Henry Ford, Alvin Macauley of Detroit, president of the National Automotive Chamber of Commerce and head of the

TURKISH RULER MAY BE VISITOR

Kemal Pasha Considers Trip to United States

Minister of Health Sounds Out Officials

Envoy Advised Nation Will Welcome Traveler

WASHINGTON, July 1. (AP)—Prospects of a visit to the United States by Ghazi Mustapha Kemal Pasha, President of Turkey, are being widely discussed in diplomatic circles in connection with the visit here of Dr. Refik Bey, the Turkish Minister of Public Health.

President Hoover has entertained the Minister at the White House and was deeply interested in the work which the Turkish government has done in not only public health, but other reforms. The President asked the Minister to convey to President Kemal his heartiest felicitations and compliments.

Although Dr. Refik Bey's visit to the United States is not of an official character in any way it has revived the reports that the Turkish President might visit the United States some time in the future.

While Dr. Refik Bey's visit has in no way been in the nature of sounding out the American government on a possible visit of the Turkish President, high official circles say President Kemal would be heartily welcomed should he come to the United States. It is emphasized, however, that no immediate plans for such a visit have been made.

SERVICE to the PUBLIC and WHAT CAME OF IT

THE name of VIOLET RAY anti-knock Gasoline was new to the public nine months ago. The name of General Petroleum, its sponsor, had been well and favorably known for years.

General Petroleum had long been a factor in the Pacific Coast oil industry, and it had always meant the same thing in every channel that engaged its facilities and energies—honest service.

General Petroleum had come into conspicuous public notice when it was the first among producers and refiners to market its gasoline exclusively through independent dealers.

Nine months ago came VIOLET RAY anti-knock Gasoline, put forward as the finest motor fuel refining science had produced—pure vitalized gasoline. Nothing added but the violet color, and that for public protection.

The word of General Petroleum was accepted. The demand for Violet Ray sprang up almost overnight, not here and there but everywhere.

A million motorists are finding that they need not pay premium prices for fine performance. VIOLET RAY anti-knock Gasoline... today's best motor fuel... is sold for the price of ordinary gasoline.

Product of General Petroleum Corporation of California

LOOK FOR THE VIOLET COLOR... IT IS YOUR PROTECTION

VIOLET RAY Anti-Knock—the superior fuel for all types of automobile engines. Made without the addition of chemical compounds—poisonous or otherwise. Worth a premium—but sold at the price of ordinary gasoline.

STEERING... a safe Course through FORTY YEARS for STATE MUTUAL INVESTORS

Your money, invested with STATE MUTUAL, between July 1st and 10th, will earn interest at 6% from July 1st

THROUGH financial seas... stormy and smooth... for forty years, the STATE MUTUAL BUILDING AND LOAN ASSOCIATION has steered a straight and true course, with compass pointing unwaveringly toward that "north star" of the conservative investor... SAFETY.

STATE MUTUAL investors are worry-free. They know their money is safe. They know that through forty years of practically continuous management, our officers and directors have learned the shoals that lie in the way of the unwary investor... and have provided every protection and security.

The STATE MUTUAL BUILDING AND LOAN ASSOCIATION has made investment safe... and profitable.

Our full-paid Certificates earn 6% interest per annum, from date of investment... a tax free income. They are issued in multiples of \$100 to any amount, and their value never fluctuates. Secured by mortgage loans on only the best improved real estate... guarded by the entire resources of the Association and by conservative policies that have been proved through forty years, these Certificates are recommended for your July investment funds.

This Association also offers Pass Book Accounts which may be started with any amount, added to and withdrawn from at your convenience.

May we give you full details with our latest financial statement?

THE SEVENTH LARGEST IN THE NATION

The Most Popular
BUILDING and LOAN
Association in Los Angeles

—and in the State as a whole

The latest available comparative figures, (the Building and Loan Commissioner's Call Statement of March 31, 1929), indicate that Pacific States Savings, during the first three months of 1929, gained more savings in Los Angeles than any other building and loan association in this city. It gained in Los Angeles alone \$1,763,723 as against \$1,218,142 gained by the second building and loan association and \$1,088,790 by the third.

Its gain in savings in Los Angeles was over 43% of the combined gain of eight of this city's largest and most representative building and loan associations.

Its gain in savings in Southern California was over 61% of the combined gain of 17 of the largest and most representative Southern California associations.

Its gain in savings in the State as a whole was over 91% of the combined gain of 22 of the largest and most representative California associations.

These gains are attributable to the ever increasing acceptance of Pacific States Savings by conservative minded savers—and are entirely apart from any gain in savings secured through the acquisition of other building and loan associations.

This acceptance has been earned by Pacific States Savings' flawless record of service extending over 40 years—and still more by the outstanding strength, liquidity and conservatism of its financial structure.

We do not suggest that you place your funds in Pacific States Savings because of its popularity. We do suggest that you analyze the simple facts that have caused its popularity with so many thousands of prudent people. They are contained in the booklet, "Our 41st Year"—and in our Statement of Condition as of June 29.

STATE TO SPEND
MANY MILLIONSCalifornia Building Program
Gets Under WayTwo-Year \$10,000,000
Budget Now AvailableSouthland Slated for Large
Share in Projects

SACRAMENTO, July 1. (P)—A California State building program involving the expenditure of approximately \$10,000,000 during the coming two years was launched officially today with the release of a budget provided for in the 1929-30 budget and of money provided in special appropriation measures signed recently by Gov. Young.

Building contractors and laborers in practically every portion of the State are to benefit by the release of these moneys, for they cover work to be done on new institutions in the extensive so-called "ten-year building program." Following are some of the details of the program for the next two years:

SOUTHERN CALIFORNIA
A woman's prison, for which \$475,000 has been appropriated; a prison for youthful offenders between 18 and 24 years of age, the initial cost of which is to be \$375,000; and a new hospital for the insane, costing more than \$1,000,000, are all to be erected in Southern California.

New State fair buildings at Sacramento, \$210,000.

New buildings and permanent improvements for the Ventura, Preston and Whittier State schools; the State hospitals at Agnew, Mendocino, Napa, Patton, Norwalk and Stockton; the Sonoma State Home; Pacific Colony, Industrial Home for Adult Blind, \$3,162,695.

Buildings and improvements at the Veterans' Home at Yountville and for the California National Guard, \$892,450.

Improvements for San Quentin and Folsom prisons, \$600,000.

New buildings and improvements

STATE'S PURSE STRINGS
TIED IN SCOTCH KNOTS

NASHVILLE (Tenn.) July 1. (P)—Tennessee began a new biennium today with its treasury locked against all comers, even State employees.

State Comptroller Graham announced that he will pay no State moneys until the State Supreme Court decides whether the signing of the new appropriation bill Sunday was valid.

Noah Cooper as a taxpayer placed the State moneys in litigation by instituting legal proceedings, holding that the Appropriation Act is unconstitutional because Gov. Henry Horton affixed his signature on Sunday, the last day of the General Assembly. The lower courts upheld the act, and an appeal was taken.

The Supreme Court is scheduled to meet the 19th inst., which will hold the State's purse strings tightly closed for three weeks or more.

for State teachers' colleges at Chico, Fresno, San Diego, Humboldt, San Francisco, San Jose and Santa Barbara, the California Polytechnic and schools for deaf and blind, \$2,216,450.

In addition to these there are other budgetary appropriations providing \$105,000 for new buildings at the Hospital for Narcotic Addicts; \$25,480 for improvement of State parks; \$689,000 for the improvement of San Francisco Harbor; \$79,000 for new buildings at the Home for the Blind, and \$23,000 for additional improvements at the Home for the Deaf.

OTHER APPROPRIATIONS
Other special appropriation bills signed by Gov. Young and providing funds released today were \$80,000 for a warehouse for the Motor Vehicle Department at Sacramento; \$230,000 for additions and equipment to the State Building in San Francisco; \$25,000 for a sanitary sewer system at the Santa Diego State Teachers' College, and \$75,000 for a National Guard armory at Long Beach.

The entire ten-year program involves an expenditure of approximately \$31,000,000. Of this \$8,941,595 was budgeted for the coming biennium, and will be spent.

**PANAMA EARTHSLIDES
BUSY CANAL EXPERTS**

BALBOA (Canal Zone) July 1. (P)—Panama Canal engineers engaged in digging today for the second time within ten days. Approximately 25,000 cubic yards of earth slid into the channel south of Contractors' Hill yesterday and there were evidences of impending further slipping. Steamship traffic thus far has not been interrupted.

RAILROAD BUYS
MORE BUS LINESThree Midwest Companies
Absorbed by Union Pacific

OMAHA, July 1. (Exclusive)—Purchase of the Interstate Transit bus lines by the Union Pacific System was announced today by President Gray. The lines involved run through various portions of the States of Nebraska, Missouri and Minnesota. Russell J. Walsh, the former owner, is to continue as president and general manager.

Additional purchases of bus lines by the Union Pacific include the Cornhusker and Queen City lines, both operating entirely within the State of Nebraska. Operation in each case will be continued under the former owner.

Dry League Will
Meet in Detroit

WASHINGTON, July 1. (P)—Detroit has been chosen as the site for the next biennial convention of the Anti-Saloon League, which will begin January 15, 1930.

BLACK EYE AIDS IN DEATH QUEST

Atlanta's Police Seek Man Who Was With Victim

Professor Found Slumped in Front Seat of Auto

Widow Says Husband Wasn't Drunk When He Left

ATLANTA, July 1. (AP)—A well-dressed man with a black eye tonight is the object of an intensified search by police in their efforts to unravel the tangled circumstances surrounding the death of Prof. A. H. Johnson of Hartwell, Ga., whose body was found slumped in his automobile in a remote section of the city early yesterday.

Police believe that this man with his finger wrote the succinct message, "driver unconscious" on the rear glass window of Prof. Johnson's automobile after parking it with its owner dead on the front seat.

DRINKING CHARGED
The man sought was described at the coroner's inquest by W. W. Wise, employee at a garage where Johnson had driven late Saturday.

Wise said Johnson "had been drinking heavily, so heavily in fact, I didn't think he should have been permitted on the streets."

The garage man also said Prof. Johnson appeared suspicious of his companion, who described himself as a "school-mate of the professor at the University of Georgia."

Wise said the pair finally left his garage, the stranger driving and Johnson on the rear seat. The robbery theory was dampened somewhat by Wise's testimony that Johnson paid him for some work, taking a \$1 bill from his wallet, which, "as far as I could see, was a lone one."

POCKETS RIFLED
It previously had been reported that the professor carried about

OCTOGENARIAN ASKS DIVORCE

Veteran of Civil War Files Action Asserting He's Tired of Fighting

OAKLAND, July 1. (AP)—Beth Jones, 84 years of age, Civil War veteran and "tired of fighting," today filed a divorce action against Mrs. Nancy Hedgeth Jones, 35.

Jones in his complaint said he thought his fighting days were over with the Civil War, but that battles in which he has engaged during the last six years were worse than Vicksburg or Walnut Creek.

\$200, but this has not been established definitely. Police held to the robbery theory, however, pointing out that two rifled bill folds were found in the car and that the slain man's pockets were turned inside out, although a valuable gold watch was left on the body.

The widow, Mrs. Johnson, in testifying before the coroner, said her husband left home at Hartwell before noon Saturday to come to Atlanta for the convention of the National Education Association.

"He told me he had only 15 cents," she said, "but that didn't worry me as I knew he could get a check cashed at either Hartwell or Royston. He wasn't a drinking man and was certainly sober when he left home."

Capone Loses Plea for Bail

PHILADELPHIA, July 1. (AP)—The State Superior Court today refused a supersedeas admitting to bail "Scarface Al" Capone of Chicago pending the outcome of an appeal for a new trial on a charge of carrying deadly weapons.

CALLES PLANS LONG VACATION

Mexico's "Strong Man" Will Sail for Europe

He May Make World Tour to Gain Isolation

Future Residence Abroad Also Possibility

MEXICO CITY, July 1. (AP)—Plutarco Elias Calles, "strong man" of Mexico for nearly five years, who has held the destiny of the republic in his hand and brought the government through a protracted era of trouble, at last is to have the vacation and rest he looked forward to last November when he relinquished the reins to Provisional President Portes Gil.

Mexico's former President plans to leave Vera Cruz the 7th inst. for Europe, with the possibility he may make a world tour. Gen. Calles may even take up residence abroad, inasmuch as he has been unable while living here to isolate himself completely from governmental and political problems.

Gen. Calles sees an era of peace and harmony ahead and hopes to withdraw completely from the picture of Mexico's internal affairs.

SAN FRANCISCO BAY GETS BOMBING BASE

SAN FRANCISCO, July 1. (Exclusive)—Establishment of the United States naval bombing base has been definitely fixed for San Francisco Bay, according to an announcement today by Mayor Ralph J. Haggerty. The base is to be located in the city of Sausalito, which is situated on the bay. The base is to be established on a site of about 100 acres, which is now owned by the city of Sausalito. The base is to be established on a site of about 100 acres, which is now owned by the city of Sausalito. The base is to be established on a site of about 100 acres, which is now owned by the city of Sausalito.

The PENNSYLVANIA announces 48 hour Coast to Coast Service by RAIL and AIR

"... the word 'railroad' no longer is adequate to describe the transportation service which up-to-date railroads now offer to the public. We are no longer railroads alone; we are transportation companies. . . . We must be prepared to offer you railroad service where it is most desirable, or bus service, or service by airplane. . . ."

GENERAL W. W. ATTERBURY,
President of the Pennsylvania Railroad

THE Pennsylvania Railroad has proceeded with characteristic attention to the safety and comfort of the traveling public in its participation in the first 48 hour Coast to Coast Rail-Air Service—effective July 7th from New York—July 8th from Port Columbus and Los Angeles, daily thereafter.

The Transcontinental Air Transport, Inc.—with which the Pennsylvania Railroad and the Santa Fe Railway have associated themselves in this new project—has engaged in the most searching investigation and preparation.

Under the supervision of a staff of experts—headed by Colonel Charles A. Lindbergh—air routes have been selected, mapped, tested by flight. Millions of dollars have been spent in the building of extensive airports. Airplanes have been most rigorously tested.

A private meteorological system has been developed. . . . also an elaborate system of communications—making it possible for planes in flight to receive weather reports compiled from observations at 32 different points. . . .

In short, everything possible has been done to ensure in this new enterprise the highest standards of speed, security, comfort—such as mark the daily operations of "the largest fleet of trains in America."

For rates, information, etc., phone Trinit 4688, Frederick Webb, Dist. Passenger Agent, Room 318 Vail News Bldg., Los Angeles, Calif.

Aboard The Airway Limited, luxurious Pennsylvania Flyer which carries passengers between New York and Port Columbus in the new 48 hour coast to coast service, you have the conveniences of a private club—unexcelled dining service, observation car, club car. . . .

Lindbergh will pilot the first plane July 8th. . . . Col. Charles A. Lindbergh is Consulting Aeronautical Engineer to the Pennsylvania Railroad and Chairman of the Technical Committee of the Transcontinental Air Transport, Inc. He has been active for many months in the work of preparation.

A Few Words of Appreciation

On Friday, July 5th, our Employees Preferred Shares program shares in a close.

The Management and Employees of this Company join in an expression of appreciation to all holders of this portion of California, for the enthusiastic support so freely bestowed upon this program.

The splendid success of this unusual method of reaching our customers has won with a response resulting in many hundreds of new shareholders who will henceforth receive regular dividends from this company.

We wish to thank the many people who, as courteous business men, have given freely of their time to employees who have called to explain this investment plan to them.

For the benefit of those having mailed cards, but who have not yet been visited, we recommend that your attention be made over the phone, or drop in at the office, sometime before our closing day, which is

Friday, July 5th

As a shareholder in this company your funds are placed profitably to work in a Safe Industry—at an income of 6%—where you will receive the same important continuous service, whether your investment be a few dollars or several hundreds of dollars.

IT PAYS TO BE THRIFTY

BAY CITY PLANS SESNON TRIBUTE

Civic Funeral to be Given
Reserve Bank Director

Business Men and Officials
of County to Attend

Chamber of Commerce Heads
to be in Cortege

SAN FRANCISCO, July 1. (Ex-clusive)—Civic honors will be paid tomorrow at funeral services for the late William T. Sesnon, business man, director of the Federal Reserve Bank and former president of the San Francisco Chamber of Commerce, who died quietly in his sleep from heart disease last night.

Past presidents of the Chamber of Commerce will attend the funeral in a body, as Sesnon was the first of their number to die. Civic officials and business associates will attend.

Out of respect to Sesnon's memory the Board of Supervisors adjourned its regular meeting today.

Sesnon in his youth was County Clerk here and after the disaster of 1906 founded the Sesnon Oil Company, which he headed at the time of his death. He had always taken an active part in affairs of the city, was a director and chairman of the reception committee of the Panama-Pacific International Exposition in 1915 and in 1919 was appointed by President Harding to head a trade commission to Japan. Locally, he was a member of the Pacific Union and Bohemian clubs.

WIFE DIVORCES BANKER

RENO, July 1. (P)—Mrs. Marion K. Stewart was given a divorce in District Court this afternoon from Louis Stewart, Jr., vice-president of the Central Mercantile Bank of New York, on the grounds of cruelty. She was awarded the custody of two children.

HIGH PRICE OF HOG LIVING STARTS GARBAGE STRIKE

SAN FRANCISCO, July 1. (P)—Another industrial "war" was raging in this city today with San Mateo hog ranchers aligned against San Francisco hotel and restaurant owners over the price of garbage.

The "war" assumed serious proportions when the hog men called a strike and refused to collect kitchen refuse, used for pig food, from more than a score of large cafes and hostesseries.

The prices charged for the swill are exorbitant, the ranchers charge, asserting that until they are lowered or the garbage is given gratis, they will feed their charges on barley.

Dr. James Toner, chairman of the health committee, took official notice of the controversy and asked the Board of Supervisors to make the garbage situation a special matter of business at its next meeting.

Water Decision Affects Vallejo and Navy Yard

VALLEJO, July 1. (P)—The city of Vallejo was today enjoined from further impounding water in its new \$1,225,000 dam in Gordon Valley or from taking water from the reservoir by a decision of Superior Judge Parker of Mono county, sitting in Fairfield.

Judgment was rendered in a suit instigated by George L. Pesbody, one of a group of orchardists and ranchers in the Gordon Valley vicinity, who hold riparian rights to the waters and who based his suit on the contention that the city of Vallejo had not acquired these rights by condemnation before construction of the reservoir.

The city of Vallejo and the Mare Island Navy Yard both are affected by the decision.

Eugene O'Neill's Wife Files Reno Divorce Action

RENO, July 1. (P)—Eugene O. O'Neill, noted playwright, was sued for divorce in the District Court today by Agnes Boulton O'Neill. The papers were sealed at the request of Mrs. O'Neill, but it is understood the charges are desertion.

In coming to Reno for a divorce, Mrs. O'Neill was said at the time she started West to be fulfilling a promise in their marriage ceremony whereby each agreed to give the other freedom should love for another arise. O'Neill, some months ago, is said to have informed his wife he cared for some one else and that the "some one" cared for him.

Board Protests Dry Killings

SAN FRANCISCO, July 1. (Ex-clusive)—Killing of citizens by prohibition agents was protested and a resolution unanimously adopted by the Board of Supervisors today indorsing the bill by Congresswoman Kahn of San Francisco, providing for indemnities of \$25,000 to the dependents of persons slain by prohibition agents.

FOR ALL DELIVERY and "PICK-UP" SERVICE

PONTIAC-powered General Motors Trucks include 7 types of 3,000 to 8,000 lbs. Straight Raising capacities; \$625 to \$1065, chassis, f. o. b. Pontiac, Michigan. Truck shown—6,000 lbs. S. R. capacity; chassis, f. o. b. Pontiac, Michigan.

\$895

ANY man who wants profitable light-duty haulage equipment will find it valuable to investigate this PONTIAC-powered General Motors Truck. "Easy to say" you may think. And so it is.

But we also provide the way in which you can prove—or disprove—the statement. Our offer follows.

In this truck you have six cylinder engine performance actually 18% to 30% greater than past PONTIAC ENGINES have provided. You have all-truck construction throughout—in every detail. You have four-speed trans-

sion. You have four-wheel brakes. You have a score of features that contribute to economy, and modern efficiency of operation.

But, above all, you have speed with safety—to cut distances and time, and to increase work-capacity. And long service-life insured—by ruggedness you can match in no other trucks near these prices.

(Time payments financed through Y. M. A. C. plan, at lowest available rates.)

Test It—Find Out at our expense

Without obligation or liability, test one of these trucks at your regular work. Find out whether or not it does increase your operating earnings; whether or not it does give you higher work-capacity; what it costs to run—how much it may save there; how your men like it; everything you ought to know about a truck before you buy it. We provide whatever available model, chassis or body, most closely meets the requirements of your work. All you need do is ask for this Work-Test. The offer includes the complete line of General Motors Trucks:

BUICK-powered; 33 types of 3,000 to 18,000 lbs. Straight Raising capacities; chassis prices, f. o. b. Pontiac, Michigan, \$1395 to \$3315.

BIG BRUTE-powered; 3 types of 28,000 lbs. Straight Raising capacity; chassis prices, f. o. b. Pontiac, Michigan, \$4250—\$4850.

RADIO PICTURE CRIME NEMESIS

Photo Flashed Across Seas Foils Fugitive's Escape

Ordinary Type of Broadcast Valuable Aid to Police

Chicago Department to Seek Its Own Wave Length

WASHINGTON, July 1. (Nana)—When a photo-radio picture was flashed across the ocean to the police on the other side to identify a criminal known to be fleeing aboard a steamer outbound from New York, a graphic demonstration was given of the part radio can play in police work. Photo-radio has an important role, carrying images and fingerprints between cities and between countries. But the American police forces are finding the radio-telephone and telegraph still more useful in their everyday fight against crime.

Chicago's police department, for example, is about to go to the Federal Radio Commission for a frequency whose carrier wave shall be broadcast at all hours of the day—ready, instantaneously, to carry orders to policemen in the field. On this wave orders would be transmitted to squad cars in the various precincts so that they may be dispatched immediately to the scene of a crime.

The squad cars in Chicago already are equipped with radio receivers. They now are tuned to the wave length of station WGN, which interrupts its programs at any time to announce instructions to certain cars to hurry to designated points. But there are several disadvantages. One is that the calls are heard by the public and large crowds invariably gather at the addresses mentioned. Another is that the criminal himself is likely to hear the alarm and escape before the police arrive. In one instance, a burglar heard the call while refilling a home.

Hence Chicago, like other large cities, wants to use a wave length to which the ordinary radio receiver cannot be tuned. The Federal Radio Commission already has set aside one such channel for police use by all police departments. It is on the continental short wave band at 1710 kilocycles (173 meters). The police departments of New York, Detroit, Cleveland and Cincinnati already are using it.

DRY ROADS IN DAYLIGHT TAKE CHIEF AUTO TOLL

SACRAMENTO, July 1. (P)—More automobile accidents occurred on straight, dry roads and during clear, daylight hours than under any other condition, the State Motor Vehicle Division reported today in its announcement that 674 persons met death through automobile mishaps during the first four months of this year.

Records show that 1151 accidents occurred on dry roads as compared with 151 on wet surfaces; 1238 accidents occurred on clear days, 103 on rainy days, fifty-eight on cloudy days and eight on foggy days.

Accidents during daylight hours totaled 598; at night 257; under good artificial light 319, and at dusk, ninety-six.

Seven autos were struck at grade crossings because their drivers disregarded signals. Four persons were killed.

Street intersections proved most hazardous for pedestrians. Persons hurt at crossings where there were no traffic signals totaled 186, nine fatally; 194 were hurt (eleven fatally) when struck down in streets between intersections. Forty-six pedestrians met death during the first four months; 599 were hurt.

Buhler Wins in New Trial Plea

SAN FRANCISCO, July 1. (Exclusive)—Dr. George A. Buhler of Los Angeles, convicted here last year of a \$100,000 mail fraud in the Salt Lake City potash lands case, and under sentence of three years in a government prison, won a new trial from the United States Circuit Court today.

Buhler was one of five convicted and appealed on the individual ground the three-year statute of limitations had expired.

The case involved fraudulent location of potash lands.

AIR INSPECTOR WARNS OF PERIL

Official Open Death Quiz in Plane Crash

SACRAMENTO, July 1. (Exclusive)—E. E. Mouton, supervising inspector of the eighth aeronautical district of the United States Department of Commerce, today launched an investigation of the airplane accident here yesterday in which two men were cremated after the ship, driven by Rosa Martin, an unlicensed pilot, had crashed 300 feet to the ground.

While not making public the results of his inquiry, Mouton pointed out that four fatal plane mishaps have occurred in this section in the last two weeks and that in each case the pilot was not licensed.

"All persons contemplating airplane trips should make sure that the craft have been passed on by the government," Mouton warned. "They should also insist that the pilot be licensed. Unlicensed ships are nothing but death traps."

NEW RAIL LINE PERMIT ASKED

I.C.C. Gets Plea of Wabash for Trunk System

WASHINGTON, July 1. (P)—Formation of a new railway trunk line in the East is planned by the Wabash Railroad.

An application for the new system was brought to Washington today by representatives of the Wabash for the consideration of the Interstate Commerce Commission.

It asks authority to acquire control by lease or stock purchase of five others. Trackage rights over several systems also are sought.

It approved by the commission the plan would result in the establishment of a fifth eastern trunk line with western termini at Chicago, St. Louis, Kansas City, Omaha and Des Moines and eastern termini at New York, Philadelphia and Baltimore.

The four trunk lines now in operation are the Pennsylvania, New York Central, Baltimore and Ohio and the Chesapeake and Ohio. The latter two have filed merger plans of their own with the commission, which have been opposed by the Wabash.

HERE'S our last call to Holiday drivers to get ready for a happy holiday and a big week-end by replacing those worn and suspicious looking tires, with brand new Goodrich Tires.

There is nothing that will ruin a holiday, your disposition, and even sport clothes, quicker than a flat tire on a dusty road.

In the next few days you will see a good many motorists stalled on the highways with tires that have suddenly developed fallen arches. Now, there is no sense to this when you can buy the finest tires in the world at the lowest prices in history.

Yes, sir, genuine Silvertowns, Cavaliers, or Commanders. The best tires that American ingenuity can make. Fifty-nine years of experience is built into every Goodrich Tire. They are the popular choice of millions of car owners because, they will give you a long ride and have the sturdy stamina to stand any punishment you can give them.

We are ready to take care of the last-minute rush. So come in right away. We will be happy to see you.

PARLIAMENT'S POMP BANNED

Opening Today to be Minus Usual Ceremonies

Simplicity Merely Tribute to Ailing King

Message from Crown to be of Record Length

LONDON, July 1. (P)—Great Britain's new Parliament, directed by the second Labor government to hold power under the towers of Westminster, assemblies tomorrow for its first real work.

The preliminaries were dispatched last week and Labor's first big gun will go into action with presentation of the King's speech from the throne. The first test of strength between the rival parties will come in the debate over the reply to the speech which traditionally presents the program of the party in power.

There will be no state ceremonial for the opening, out of regard for the King's health, since he has just recovered from illness.

The King's speech from the throne is expected to be the longest in the history of British parliaments. The speech is expected to refer to world disarmament and British relations with the United States, Premier MacDonald's visit to Geneva for the League Assembly, the unemployment situation, the acceptance of the Young reparations plan and the question of evacuation of the Rhineland by the British army of occupation.

King George, although he will not personally open Parliament, nevertheless attended to the necessary state duties connected with it. He received at Buckingham Palace tonight a number of the new Labor appointees to the royal household and presented them with their insignia of office.

JOYOUS LONDON HAILS KING

Cheers and Tears of Happiness Greet Ruler as He Returns, a Well Man, to Capital

LONDON, July 1. (P)—Welcomed with echoing shouts of joy and tears of affection, King George, thin but beaming, returned to his capital today, signalling recovery from his long and dangerous illness. The British sovereign, confident in renewed health and vigor, rested tonight again in Buckingham Palace, whence he was borne in an ambulance five months ago a pale and enfeebled man just struggling back from the doors of death.

Restored to strength and his London home, His Majesty reviewed the events of the day, beginning with his journey from Windsor, marked by overwhelming evidence of his people's love. Such a flood of eager greeting and ardent devotion as London poured out for her returning sovereign today perhaps never was offered before to an honored statesman, warrior or King in the history of these islands.

Moving slowly through two miles of packed humanity, His Majesty received with a quiet kindly smile his people's tributes of cheers, of fragrant flowers and of weeping.

With a gentle wave of his hand or a sweep of his hat he acknowledged their fervid shouts and waving flags. With moistening eyes he looked at the huge banners which proclaimed the universal sentiment, "God bless and save the King."

Eagles to Back Ocean Birdmen

SEATTLE, July 1. (P)—The Seattle Aerie of the Fraternal Order of Eagles announced today plans for the flight of a giant plane in August from Tokyo across 4500 miles of the Pacific Ocean to Seattle.

The plane, bearing the insignia of the order, will be piloted by Jerry J. Smith, aviation instructor in the World War, and John R. Allen, veteran aviator and navigator. Both men are operators of Boeing commercial planes.

THREE TO HANG ON SAME DAY

San Quentin's First Triple Execution August 30

SAN RAFAEL, July 1. (Exclusive)—The first triple hanging in the history of San Quentin Prison is scheduled for August 30. The condemned are John H. Price, 41 years of age, Los Angeles truck driver, who shot to death his common-law wife, Maurella Adams, nearly two years ago in a drunken rage, and John Gomez and George Ryley, who killed George (Dad) Jones, 66, Livermore taxi driver, and robbed him of \$22.

Russell St. Clair Bettel, who murdered 19-year-old Barbara Mauer, in Los Angeles, will be hanged August 2.

PARIS TOURIST CROP FAILURE

Falling Off Worries French; World Drive Proposed

PARIS, July 1. (P)—The summer tourist season has been such a disappointment thus far that it promises to be even less satisfactory than that of last winter. Government traffic officials, hotel men and tourist agencies already are discussing means of remedying the situation.

Abolition of the embarkation and disembarkation taxes levied on every tourist, repeal of luxury taxes, and the raising of 30,000,000 francs (\$600,000) as a fund for an intensive propaganda drive throughout the world, and especially in the United States, are some of the panaceas being considered.

Keep this in mind when you trade-in your car

THAT one dealer may offer you a larger allowance than another does not necessarily mean that he is giving you the best deal.

You will buy most advantageously to yourself if you remember these basic facts:

- 1
A trade-in transaction is a purchase, not a sale. You are simply applying your present car as a credit against the price of the new car.
 - 2
Your present car has only one fundamental basis of value: what the dealer can get for it in the used car market. It seems to have different values because competitive dealers are bidding to sell you a new car.
 - 3
An excessive allowance may mean that you will be paying an excessive price for the new car in comparison with its real value. In other words, the new car may be priced to permit the extra allowance.
 - 4
Consider first the merits of each new car as compared with its price, including all delivery and finance charges. Then consider the various allowances offered on your present car.
- Don't put the cart before the horse.

JOHNSON HITS AT MEDDLERS

He Declares State Should Stick to Knitting

Failure of Debitures Laid to "Big Interests"

California Asks Too Much, Senator Asserts

SAN FRANCISCO, July 1. (AP)—Senator Johnson returned here last night from Washington, and issued a statement criticizing what he termed "big interests" which he charged were responsible for the failure of the debtors plan in the farm-relief bill. The Senator declared that individuals, charged at his victory on Boulder Dam, had decried California farm organizations into protesting against his stand on the farm measure.

The statement of Senator Johnson follows:

"There never was a doubt of the passage of a farm bill with the provisions of the bill which is now a law.

"Everybody in Washington knew this, and the representatives of California corporations either knew it and wittingly conceded it, or were grossly ignorant.

EQUALITY SOUGHT

"The only question was whether the debtors plan should be a part of the bill. This plan sought merely to put agriculture on an equality with industry in respect to the exorable surplus. The plan as proposed was a mere option to be utilized or not as the President and his farm board decided. It was an additional remedy to be tried only as the administration might hereafter determine. It was asked by the great wheat-growing States, where suffering has been more acute and more widespread than in any other part of the nation.

"I was and I am sympathetic with these people. I wanted such relief as California might obtain under the law and I was willing to extend relief to others as well.

HOSTILITY BITTER

"I never have been able to understand why the optional debtors clause aroused such bitter hostility. I cannot yet see why a mere permission to do something if something else contemplated did not succeed, should cause such a furor among the big interests of the East and all the little followers of the big interests. I've preached farm relief when few in California apparently were interested. And I repeatedly have said I was willing to try anything, however empirical, in the hope of finding a remedy for agricultural distress. I was for the debtors plan. And here certain Californians saw their opportunity to resort to the old tactics of deceit and falsehood and misrepresentation.

"California asks more of Congress than any other three States. Indeed, with our constant demands we've become something of a butt in the national capital. Neither Senators nor Congressmen like a dog-in-the-manger attitude.

TOO MANY DEMANDS

"We demand relief for ourselves and in the same breath deny it to those who need it as badly, if not worse, than ourselves. It is this

FRANCO FOUND BY CHANCE

Flyers Who Sighted Plane Had Given Up Hunt and Were on Way Back to Mothership

LONDON, July 1. (AP)—Discovery of the missing Spanish aviators was the result of the merest of chances after an airplane from the Eagle had given up the search and was returning to its mothership, says the Evening Star aviation correspondent. It was a Blon fleet reconnaissance machine which had taken up the search, he writes. The craft had left its floating airbase to scour the route believed to have been taken by the aviators. The visibility was poor with the wind constantly changing and the sea somewhat choppy.

After inspecting hundreds of miles of the Atlantic Ocean surface, the "Blon" gave up the search and started for the "Eagle," having nearly reached the limit of the time it could remain aloft. One of the men on the "Blon" started to play a mouth organ as a rest from the sea-sickness when a second man saw a small craft far below, apparently drifting. Going lower, those on the "Blon" saw that there were men aboard frantically waving to attract attention. Then the "Blon" discovered it was the missing seaplane.

DEBENTURES WILL BE GIVEN FOUR FLYERS

MADRID, July 1. (AP)—Mal. Ramon Franco and his three companions, rescued by the British aircraft carrier Eagle and on the way to Gibraltar aboard her, will find one of their country's most coveted honors awaiting them when they are disembarked tomorrow. Prestige that imperils California's tariff.

"May I suggest to those of California who ask tariff increases on lemons, lemon by-products, almonds, walnuts, olives, olive oil, onions, garlic and the thousand and one other things in which California is interested, that they attend to their own knitting and that they leave to those who represent them, who understand infinitely better, conditions in Washington than political henchmen or those who expect money out of legislation, what shall be done in matters in which California has no vital concern?

TELEGRAMS FOUR IN

"All kinds of telegrams began to pour in. Most of them I welcomed. But a part of them, dictated by a California politician, who expects to 'cut a melon,' as I am told one of his associates expressed it, contained the covert threat that if I continued in the course I thought I ought to take, California's tariff rates would be imperiled. These I resented, and in this I was not alone. It was a sad and pitiful thing that the good people who constitute the membership of our organization were utilized by politicians to demand a farm relief for themselves while vigorously denying it to those of the great Middle West who have suffered most grievously.

"It is noteworthy fact that Senators Brooke and Borah were the gods of the Republican party last year and who made the Republican fight in the great agricultural districts there. They won the doubtful farm States for the President, both favored the debtors because they said the premises they made which were repeated in the millions of their printed speeches, could only thus be redeemed.

REMEDY OPTIONAL

"It is equally notable that every Senator from the great farming

NAVY ORDERS 152 AIRPLANES

Construction Contracts Total \$4,172,949

Experimental Types and 168 Motors Included

Awards Made to Eastern Manufacturers

WASHINGTON, July 1. (AP)—Contracts for the construction of 152 airplanes, including five experimental types, and 168 motors, at a total cost of \$4,172,949, have been let by the Navy.

Most important of the experimental planes is a three-motored monoplane flying boat carrying a crew of five, which is to be built at a cost of \$150,000 by the Glenn L. Martin Company of Baltimore. This plane is the latest development of the Navy's PN series, which now holds eight world records.

Of the motors ordered 132 are to be built by the Wright Aeronautical Corporation, Paterson, N. J., and thirty-six by the Pratt & Whitney Aircraft Corporation, Hartford, Ct.

Fifty-one standard navy training convertible biplanes are to be built by the Consolidated Aircraft Corporation; the Chance Vought Corporation, Long Island City; is to build forty-two observation seaplanes for use on catapults from battleships and cruisers; Curtiss Aeroplane and Motor Company, Garden City, L. I., is to build thirty-six two-seater fighters, and eight torpedo and bombing planes for aircraft carrier use are to be built by the Great Lakes Aircraft Corporation, Cleveland.

The experimental ships included one high-speed torpedo land plane for aircraft carrier use to be built by the Martin Company in Baltimore; a Ford all-metal transport plane carrying ten passengers and a crew of two, and two convertible two-seater observation planes.

WHOLESALE METHODS ADOPTED BY DOCTORS

SALT LAKE CITY, July 1. (AP)—Dr. W. B. Thayer, president of the American Medical Association, told the Utah State Medical Association, in session here, that the medical field had been invaded by wholesale methods common in commerce. "One does not consult a physician," he said, "he consults a clinic."

Japanese Emperor Passes Through Kobe

Subjects Kneel Barefooted as Car Rolls By

Foreigners Given Salute by His Majesty

BY FRED HOGUE

MAYAJIMA (Japan) June 8. (Exclusive)—Yesterday I passed through Kobe when the Emperor was there, action of an imperial house that has occupied the throne of the Japanese Empire since history first began.

Early in the morning, while the Great Dipper was still in the sky, I looked forth on the boulevard from my window in the Oriental Hotel, where the imperial cortege should pass. This boulevard is parked like West Adams street in Los Angeles. In the parkway the municipality had spread straw mats on which the loyal subjects might kneel.

The royal cortege would not pass before noon, but at dawn the places were all taken. From far inland they had come, to kneel while the Emperor passed.

SUBJECTS REMOVE SHOES

Dawn broke. The sun rose over the pine-clad mountains where the pink azaleas bloom and looks down into the bay. Autos in which rode the elite of the army and navy of Japan rolled past my window. But the kneeling multitude hardly vouchsafed them a glance; they were waiting for His Majesty.

Japanese who came from the interior had removed their gatas, their sandals, their American-made shoes. These were ranged in long rows on the edge of the curb. When the Japanese knelt in adoration they remove their footwear as the Emperor passes.

No fire burned in the industrial furnaces of Kobe that day, lest the smoke should be offensive to the imperial nostrils. All the marts of commerce were closed. One does not buy and sell in a Japanese city when the Emperor comes.

LOOKING DOWN FORBIDDEN

Every available space on the boulevard is occupied by the kneeling thousands; likewise the cross-streets approaching the boulevard. My room boy informed me I must go down into the lobby. No one is permitted to look down upon the Emperor when he passes. His subjects must kneel with bowed heads. There must be absolute silence, not even a whisper.

When I expressed a desire to see the procession there was a conference; then I was permitted to cross the street before the municipal building, where about fifty foreign dignitaries were permitted to assemble.

A motorcycle passes down the thoroughfare, followed by an auto

GOVERNMENT TO AID INDIGENTS

New Rehabilitation "U. S. New Available 1:1 Use in Washington

WASHINGTON, July 1. (AP)—A new opportunity dawned today for sidewalk mendicants and alms seekers in Washington.

With the advent of the new fiscal year, a \$30,000 appropriation became available to enable the Federal Board of Vocational Education to attempt the rehabilitation of individuals in the capital who are incapacitated for ordinary work through loss of sight, arms, legs and other causes.

The \$30,000 was provided for the first year's effort to restore these unfortunates to self-dependence.

In which at four uniformed officers, then comes a Rolls-Royce limousine in which rides the Emperor. The kneeling thousands do not raise their heads. There are legends without number of commoners who were struck with blindness when they raised their heads to look upon the royal countenance.

But we foreigners are without faith. We looked, and the Emperor must have suspected that we would be looking, for, through the closed window of the imperial limousine, we sighted an imperial salute.

I had only a passing glimpse of the Emperor, young and slender, not more than 30 years of age, with a closely cropped mustache, an oriental complexion and wearing a military uniform.

Silence more impressive than the loudest acclamations attended him, the silence of Nirvana. It is the way of the East.

Tablet to Mark Teton Ascent

CHEYENNE (Wyo.) July 1. (AP)—The first ascent of the Grand Teton Range, made by William Owen of Los Angeles and three other men, August 11, 1898, will be commemorated by placing a bronze tablet at the summit late this month. A party of climbers including Dr. F. M. Pryzell of Augustana College, Illinois, has been designated to make an ascent starting the 28th inst. to place the tablet.

This will be part of ceremonies in which Teton National Park will be dedicated by the National Editorial Association.

SAN LUIS OBISPO BATHERS DROWNED

SAN LUIS OBISPO, July 1. (AP)—Harry Bohrer, 27 years of age, garage mechanic of Delano, and Robert O'Neal, 14, of this city, drowned while bathing at the beach near Oceano yesterday.

NEW ETHICAL CODE ADOPTED

N.E.A. Convention Approves Rules for Teachers

Aims to Raise Standards of Profession

Two Candidates Named for Presidency

ATLANTA, July 1. (AP)—The National Education Association today adopted a general code of ethics which has been in preparation by a special committee for five years. The code was drafted after long study and research and embodies many clauses never before explicitly stated in any similar code. Among its provisions are:

CODE PROVISIONS

"The schoolroom is not the proper theater for religious, political or personal propaganda.

"The teacher should not permit his educational work to be used for partisan political, religious or selfish propaganda of any kind.

"The teacher should not tutor pupils in his classes for pay.

"The teacher should insist upon a salary scale suitable to his place in society.

"The teacher should not act as agent or accept a royalty, a commission or other reward for books or supplies in the selection of which he can exercise an influence."

DEAN WILLIAMS SPEAKS

Dean Walter Williams, founder and head of the University of Missouri school of Journalism, and president emeritus of the World Press Congress, addressed the educators. The title of his speech was "A Reporter Looks at a New World."

"A force to blow up the rocks of indifference and intolerance—that's what education means in the new world," he declared. "Going from place to place, the reporter sees that it is a new world, a new and different world. He sees that this new world brings not new duties but old ones in new dresses. There is the challenge to fit old principles to the new world."

"We must grow more tolerant, the reporter thinks, in so small a world. At the best tolerance is rooted in a wide historical knowledge so that we may see events in their proper perspective."

Miss E. Ruth Pryde, principal of Bancroft School, Lincoln, Neb., and Miss Emma MacGregor, principal of the John Burroughs School, Minneapolis, were nominated today for president of the association. Elections will be held Wednesday.

DUKE PROXY SPONSOR OF ALEXANDER'S SON

BLVD (Globe-Skyline) July 1. (AP)—The Duke of York will act as godfather by proxy for King Alexander's new son who will be christened Ivan Paul, at Bled within a fortnight. Sir Howard William Kennard, British Minister at Belgrade, will represent the Duke of York.

BULLOCK'S STORES FOR MEN

A Holiday Ahead! The Fourth!

And More of Those Quality

MEN'S SHIRTS

\$1.85

(3 for \$5)

Yesterday, following Sunday's announcement of this great Event in Men's Shirts, buying was intensive! And it will continue to be so! Think—a holiday ahead—two more days and the Fourth! So, reserve stock has been brought forward—selection is intact!

These shirts are of excellent quality. They are shirts for dress occasions. Shirts of desirable patterns... that men appreciate, and wear often.

But more than appearance. These are shirts that were made to sell for more money—shirts, in fact, that have sold for more money. Each is particularly constructed—individually tailored to bring out the remarkable fabrics. Fine count Pima Broadcloth. Woven Madras. Shirts with

light and dark grounds. Shirts plain white, striped figured. Figured patterns especially emphasized in the smartness of small all-over design. Collars that are in correct taste, and that fit—collar attached and to match styles. All regular sizes, 14 to 18 regular sleeve lengths.

An opportunity to profit in good appearance... just before the Fourth,—when a good appearance is demanded. Today and tomorrow, \$1.85, 3 for \$5.

A 6% Investment Insured as to Both Principal and Interest

RIGHT now, before you place your July funds, is an appropriate time to consider the subject of *investment insurance*; and, particularly, to consider the significance of the phrase "insured as to both principal and interest," when applied to an investment by an old and successful institution with resources of more than \$80,000,000.00.

Assuming that you want to *invest*, and not to *speculate*, your first consideration is *safety of principal*. How are you going to obtain it? Certainly not through any form of security alone, because no form of security in existence can provide 100% safety under any and all conditions and contingencies. It was in recognition of this important fact that the Insured First Mortgage Certificates of the Mortgage Guarantee Company were originated sixteen years ago.

It is dangerous to consider the term "safety" in its *comparative* sense when selecting investments. For the sake of a slightly higher yield, many investors buy securities which are "comparatively safe," thereby incurring risks which they really cannot afford to take.

The settlement of nearly every large estate reveals an important sum of money tied up in "comparatively safe" securities which can be liquidated only at tremendous sacrifice.

Thus, the first point to settle definitely in your own mind is whether you are going to take chances on this vital question of safety by trying to measure it in degrees, or whether you are going to have the complete freedom from care and responsibility which nothing but *absolute* safety can provide.

If you decide upon the latter, it naturally follows that you must select an insured or guaranteed form of investment, and, here again, keen discretion is required, because there are various forms of insured and guaranteed investments, and it must be remembered that no guarantee is stronger than the guarantor.

Consider, then, the form in which the Insured First Mortgage Certificates of this Company are issued and the manner in which the investor is protected against any loss in either principal or interest.

In the first place, these Certificates represent actual pro rata ownership in a group of first liens on improved

real estate, widely diversified territorially and otherwise, constituting the most fundamentally sound form of security known; and in no instance can any of these liens exceed 50% of a very conservative appraisal.

Hence, the actual, incontestable property value back of these liens, and back of the Certificates which represent them, is more than double their face value.

This alone, in the opinions of many investors, undoubtedly would justify us in listing these Certificates as thoroughly safe investments; but, because there are conceivable conditions under which this protection might not prove 100% effective, we go still farther and deposit with the trustee a policy of insurance for each lien, insuring the investor (under the Mortgage Insurance Act of California) against any loss of either principal or interest.

It may be correctly stated, therefore, that these Certificates represent the nearest approach to 100% safety that it is humanly possible to provide. It is this fact that emphasizes the excellence of the yield, as these Certificates are now obtainable in two to five-year maturities on a 6% basis.

We have thus provided the utmost in safety and yield for our ever-growing clientele of investors, including banks, insurance companies, trust estates and experienced individual buyers throughout the United States.

These Certificates may be had in denominations of \$100 and any multiples thereof, with interest payable either quarterly or semi-annually, and in any months of the year desired.

Interest is paid by check, promptly on due dates; hence there are no coupons to clip.

We know of no other form of investment which so completely eliminates all care and responsibility, and, at the same time, returns the liberal yield of 6%.

So, before you make your mid-year commitments, may we suggest that you obtain all the facts concerning these Insured First Mortgage Certificates?

Simply telephone or use the coupon for a copy of the descriptive booklet, and then follow your own judgment.

TRADING HEAVY FOR HALF YEAR

Local Stock and Curb Markets Active in Period

Survey Shows Total Turnover of 34,983,265 Shares

Increase Over 1928 Months Set at 30 Per Cent

Trading on the Los Angeles stock and curb exchange for the first half of the current year involved a combined total of 34,983,265 shares, an increase of more than 38 per cent over the volume registered for a similar period last year by the stock exchange, according to an analysis of transactions released yesterday by Carl P. Miller, secretary and manager of the stock exchange. The comparison of the two exchanges for the first half of this year is made with that of the stock exchange alone for the corresponding period of last year, because the curb was not created until June 4, 1928, and many of the stocks previously handled by the stock exchange have been removed to the curb.

Shares numbered 9,884,583, with a total valuation of \$238,358,882, showed the board of the stock exchange during the first six months of this year, while 25,098,672 shares, valued at \$135,581,893, were transferred on the curb, making the combined total 34,983,265 shares, valued at \$373,940,775, compared with 23,189,469 shares, valued at \$122,101,115 for the corresponding period of the previous year on the stock exchange.

Industrial stocks on the big board registered trading in 618,178 shares, valued at \$23,653,540 for the six months, compared with 107,409 shares, valued at \$5,050,325, for the entire year of 1928. Oil shares transferred totaled 4,710,400, with a valuation of \$118,635,788. The utility list traded a combined total of 65,075 shares, valued at \$2,122,524, scoring heavily as a result of the activity shown by eastern utilities during the last month. Miscellaneous stocks accounted for trading in 618,178 shares, with a valuation of \$23,653,540.

The exercise of 974,816 rights and warrants with a valuation of \$2,205,087 was recorded during the six-month period, while bonds traded in reached a total of \$624,000.

RESERVE OF GRANBY MINING GETS BOOST

NEW YORK, July 1. (Exclusive)—Stockholders of Granby Consolidated Mining Company at a special meeting today voted to increase the reserve fund for depletion and depreciation \$2,367,738, which is to be appropriated immediately from excess current assets. Directors were also authorized to make further proportionate distributions to shareholders as a return of capital from time to time as they see fit from this reserve fund up to the amount just appropriated, plus the residue of the previous appropriations to this reserve.

The Clearinghouse

News of Spring Street

James R. Page, executive vice-president of the California Bank, has just returned from a two-month trip abroad, the fifth in the past ten years. "Conditions in both France and England seem to be better than on any of my previous visits since the war," he said. "That fact was not true in England where the unemployment situation has been acute. This year the merchants are doing more business and the country is generally more prosperous."

Appointed Commander

Paul F. Cadman, head of the investment department of Lath, Keyser & Co.'s Los Angeles office has been appointed commander of Battery E of the Four Hundred and Fourteenth Field Artillery.

Joins Advertising Staff

Berry Bayley, who has had a background of several years bond selling and advertising work, has joined Logan & Stebbins, advertising agency of this city and San Francisco. Bayley will concentrate his time on handling accounts handled under the direction of Barton A. Stebbins.

Returns to Desk

Curtis H. Bingham, sales manager for Alvin H. Frank & Co., investment house, has returned from a two weeks' business trip to Chicago, Indianapolis, Milwaukee and other midwestern cities.

Oil Analysis Issued

Griffith-Wagoner & Co., investment bankers, have issued a report on nine Standard Oil stocks which shows, among other things, that the average annual income, including appreciation, totaled 41.61 per cent over the past seven years.

Central Trust Adds New Units

CHICAGO, July 1. (Exclusive)—Central Illinois Company, which is affiliated with the Central Trust Company of Illinois through identical stock ownership, has added the investment banking business of the bond department of Central Trust Company, Federal Securities Corporation and Central Securities Company, it was announced by officials today.

IMPROVEMENT BOND OFFERING OUT TODAY

Public offering of \$23,000 Culver City acquisition and improvement District No. 1, 6-1/2 per cent bonds will be made today by C. P. Childs & Co. It was announced yesterday. The bonds which are due from May 20, 1932 to 1940, inclusive, are priced to yield 6 per cent. This is the first time that the entire bonded debt of the district whose assessed valuation for land alone is more than \$1,100,000, it was stated.

BUILDING AND LOAN ANNOUNCES DIVIDEND

Pacific Coast Building-Loan Association directors have declared a semiannual dividend at the rate of 8 per cent per annum on all membership shares and guaranteed capital shares. A. A. Anderson, secretary, announced yesterday. The association has paid out \$336,098.61 in interest and dividends during the past year, he stated. Resources have passed the \$6,000,000 mark.

CITIZENS' NATIONAL DEPOSITS INCREASE

Deposits of the Citizens' National Trust and Savings Bank during the past year have increased \$10,200,000, or 10 per cent, M. J. Connell, chairman of the board, announced yesterday. The business of the bank is confined to the city of Los Angeles. Resources increased \$17,630,000 to \$127,333,078.

SOUTHERN RAIL NET UP

NEW YORK, July 1. (Exclusive)—Southern Railway Company's net income for May after fixed charges, deductions and preferred dividends was equal to 28 cents a share on the common stock outstanding against 26 cents a share in the same month a year ago. For the first five months, the net income was equivalent to \$4.22 per share as compared with \$3.59 in the corresponding period of 1928.

WARNER BROS. BLAZE TRAIL

Pioneers in Talking-Picture Field and Also Leads With All-Color Productions

BY DOUGLAS A. McKEAY
A short while ago Jack L. Warner, vice-president of Warner Bros. Pictures, Inc., made the prediction that within eighteen months all motion picture field would be "all-talkie." Now this pioneer in the motion picture field asserts that within eighteen months all productions will not only be talking pictures but will be entirely in natural colors.

"On With the Show," the first all-color, all-talkie feature production released by any company ran at Warner Bros. Theater in Hollywood for five weeks and broke all box-office records for a Warner picture and even the sensational showing of the Al Jolson classic, "The Singing Fool." The demonstration following the New York premiere was said to have surpassed that of any production on record.

The motion picture of Warner Bros. is a struggling independent operating at a loss to a dominant position in the motion picture industry, because it was first in the talkie picture field by nearly a year, is widely known. No less spectacular has been the performance of its stock on the open market. Although it is not supposed that its advance into sound production will cause anywhere near equaling the results arising from its lead in talking pictures, nevertheless, Warner Bros. have the advantage of being first in the field of sound production. The company has produced in colors which are all-talkie and which will be released shortly, while a total of fifteen, including those, are scheduled to be produced before December 31, next, which will be released as part of the 1929-30 program.

Technicolor, Inc., leader in cameras and develops the negative. Warner Bros., however, have been conducting experiments in the proper use of the camera. It has been said that photographic presentation, in most cases, demands a more expert knowledge of the relation of colors than would be required by a designer of a stage play. "Thus have been taken into consideration bolts of cloth of various colorings and designs, and the grouping of these shades."

Technicolor, Inc., may lease its cameras to other producers but according to Warner officials, there is an acute shortage at the present time, and they add that it takes about three months to manufacture one.

Other producers have not been unwary of the possibilities of colored productions but to date, so far as can be learned, no business for the "talkie" and colored sequences by the larger companies.

First National, controlled by Warners, and operating a separate unit is completing the production of one all-color feature and will start soon on another, while Twentieth Century Fox, which has been making colored sequences for some time, is completing the production of the experimental work has been covered, will cost 25 per cent more than the same length talking feature.

Maddux Aero Merger Deal Now Assured

Voting trust certificates representing more than 51 per cent of the outstanding stock of Maddux Aero Lines Company had been deposited up to yesterday, to be exchanged for voting trust certificates representing capital stock of Transcontinental Air Transport, Inc., Bancamerica-Air Corporation and Bond & Goodwin & Tucker, Inc., announced yesterday.

Failure on the part of the stockholders to deposit 51 per cent or more of their holdings by the last date would have given Transcontinental Air Transport, Inc., the right to nullify the proposed consolidation of the two companies.

Now that consummation of the deal is assured, the period of exchange has been extended to the 31st inst. in order that those who have been unable to deposit their certificates prior to the last, may now accept the exchange offer.

Trading Quiet on London Mart

LONDON, July 1. (P)—The stock market had a quiet tone today with Anglo-American securities in good demand. The oil list had an easier tone and mining issues moved irregularly. International Nickel had a firm tone and hydroelectric issues were in demand. Shares of talking-machine concerns were irregular with Columbia Graphophone higher and H. M. V. Gramophone lower. Rubbers were quiet. Tobacco steady and artificial silks easier. Dimpsey was strong and textiles quiet. Ford Motors, Ltd., held around 23 5/16.

STOCK SPLIT-UP RATIFIED

NEW YORK, July 1. (Exclusive)—At a special meeting of Royal Type-Writer Company's stockholders today, the proposal to increase the no par common stock from 134,852 to 269,704 shares and to split the common stock two shares for one was ratified. The proposal to give holders of \$100 per preferred stock two votes per share, thus maintaining equal voting power of the respective stocks, was also approved.

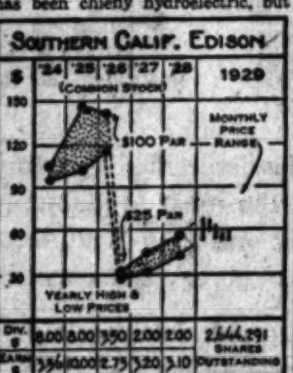

VISIBLE GRAIN REPORT

CHICAGO, July 1. (Exclusive)—The visible supply of American grain shows the following changes in bushels: Wheat increased 8,000, corn increased 490,000, oats decreased 120,000, rye increased 30,000, barley increased 343,000.

WHAT'S BEHIND YOUR STOCK

Southern California Edition

The Southern California Edition Company is the third largest operating electric-light and power company, and second in the hydroelectric field in the United States. The company serves a population of more than 2,000,000. During the last two decades the development has been chiefly hydroelectric, but

In the future, development is expected to be more along electric. The output of the combined plants for 1928 was 2,783,459,343 kilowatt hours, an increase of 14.8 per cent over 1927. The company has been estimated at 3,978,000,000 kilowatt hours.

Book value of the plants and property has increased about 150 per cent in the last seven years. The company is stressing the development of new business, and the normal increase in the company's business is expected to be about 10 per cent per year.

CAPITALIZATION

Preferred stock	\$1,000,000
Common stock	\$1,000,000
Total	\$2,000,000

Current date: Gross income for the first six months ended June 30, 1928, totaled \$1,078,423. This compared with \$1,058,860 for the corresponding period of 1927.

United Fruit's Profits Off in First Half Year

BOSTON, July 1. (Exclusive)—United Fruit Company in its report for the six months ended June 30, last, today showed net profits of \$7,600,000 before Federal tax, as compared with \$11,100,000 for the corresponding period of 1928.

Day's Dividend List Reported

NEW YORK, July 1. (Exclusive)—The following dividend declarations were reported today:

Mid-Continent Petroleum, regular quarterly of 50 cents, payable August 15 to stockholders of record July 15.

Bureau Vacuum Cleaner, regular quarterly of \$1 to stock of record the 20th inst.

National Terminals Corporation, regular quarterly of 25 cents on common and 45 cents on conversion preferred, payable August 1 to stock of record the 23rd inst.

Andover Midland, regular quarterly of 50 cents on common and \$1.75 on preferred, payable August 1 to stock of record the 15th inst.

Universal Fire Radiator, regular quarterly of 1 1/2 per cent on preferred, payable August 1 to stock of record the 15th inst.

Ardena Corporation, regular quarterly of 20 cents, payable the 15th inst. to stock of record the 15th inst.

Lenox National Securities Corporation, regular quarterly of 25 cents on common and 1 1/2 per cent on preferred, payable the 15th inst. to stock of record the 15th inst.

Coca Cola Bottling Company, regular quarterly of 17 1/2 cents on preferred, payable the 15th inst. to stock of record the 15th inst.

Dr. Max M. Munk, aerodynamic designer, has joined the engineering staff of the Alexander Aircraft Company, J. Don Alexander, president, announced yesterday. Munk is the designer of the "Curtiss M" wing sections now used on numerous planes over the world. He is also the discoverer of the induced drag computation methods. Mr. Alexander stated.

BENDIX AVIATION EXPANDS

CHICAGO, July 1. (Exclusive)—Bendix Aviation Corporation has acquired the Pioneer Instrument Company of Brooklyn, N. Y., through an exchange of stock, it was announced today.

DOUGLAS COMBINE DEAL OFF

Aircraft Company Board Turns Down Proposal of Curtiss-Wright

Directors of the Douglas Aircraft Company at their annual meeting yesterday, opposed the presentation to stockholders of the proposal of the Curtiss-Wright corporation to consolidate with its organization and, according to a statement by Donald Douglas, president, the board resolved not to recommend any merger at the present time.

Richard Miller, vice-president of the Bancamericair Corporation, and J. H. Kindelberger, chief engineer of Douglas, were elected directors, increasing the board membership to seven. Donald Douglas, president, was also appointed vice-president in charge of engineering. Other officers and directors were re-elected.

Orders on hand amount to about \$3,000,000. Dr. Douglas stated, while planes and parts delivered in the past seven months approximated \$4,000,000. The company is developing a commercial plane and if experiments are successful, it will consider the production of such a model this fall.

Officials are of the opinion that sales for the last half of the current year will be materially increased. The present rate of earnings coupled with a sound financial structure, warranted much better terms.

Greene-Cananea Offer Voted by Anaconda Board

NEW YORK, July 1. (P)—Directors of the Anaconda Copper Mining Company today authorized an offer to exchange one and one-half shares of Anaconda common stock for each share of Greene-Cananea Copper Company and 40-100 of a share of Anaconda for each share of Anaconda Copper Mining Company stock. Anaconda already has a substantial interest in both companies.

The offer expires on October 1. John D. Ryan, chairman of Anaconda, said that operations of the Anaconda company, whose properties are in Chile, during the first six months of 1929 were at the rate of 200,000,000 pounds annually, and that it was intended to increase the output by 30,000,000 pounds.

Greene-Cananea, which through a subsidiary controls mines in the State of Sonora, produces at the rate of about 75,000,000 pounds annually, but output was curtailed by the Mexican revolution.

MacMarr Chain Adds New Link

Acquisition of the business and assets of Bay Cities Mercantile Company, operators of Humpty Dumpty Stores, by MacMarr Stores, Inc., was formally completed yesterday. The acquired corporation operates fifty-four grocery stores in Los Angeles and surrounding communities.

MacMarr Stores, Inc., now with total annual sales of approximately \$5,000,000, Edward F. Blanton, president of the Bay Cities Mercantile Company, will remain with MacMarr Stores as will the rest of the personnel of the concern.

AMERICAN WATER WORKS INCOME UP

Consolidated net income of the American Water Works and Electric Company, Inc. after all charges for the year ended May 31, last, amounted to \$2,947,058, equivalent after preferred dividends to \$3.93 a share on the 1,067,950 shares of common stock outstanding. It compares with \$3.91, or \$2.89 a share on 1,205,436 common shares earned the preceding year.

COTTON MARKET

NEW YORK, July 1. (P)—Relatively easy cotton market and a favorable view of weather conditions and one for decline in the South seemed to prevail in cotton today. There was a moderate rise in the futures and one selling. The market was quiet after the close. The advance in call money to 2 1/2 points net to 2 1/2 points.

MACDONALD AIDES ABLE MEN

Sidney Arnold, Finance Expert, and Sidney Webb, Labor Writer, Lieutenants in House of Lords

NEW YORK, July 1.—When I met Ramsay MacDonald for the first time several years ago he asked if I had met Sidney Arnold, "one of the finest financial minds in the empire," as he expressed it. I voted a desire to see Mr. Arnold. So the Labor leader reached for his telephone and arranged a meeting.

I found Mr. Arnold a pleasant, cultured, rather slight, delicate, modest man, apparently more eager to ask questions than answer them. The growth of wealth in the United States interested him particularly—mass methods, high wages, enlarging the buying power. One could see his mind almost working to find some way to adopt American wealth-producing methods in England.

When Mr. MacDonald became Prime Minister for the first time, in 1924, he made Mr. Arnold, then 46 years of age, Baron Arnold, in order to have one of the best financial minds to represent the Labor party in the House of Lords.

With the Labor party again taking charge of the government of England, another distinguished Labor member, whose first name is Sidney, also, will join Baron Arnold in the House of Lords to uphold Labor policies. He will be known as Baron Passfield. He is a strong man, known throughout the world of scholarship as Sidney Webb. Seventy years of age next month, he probably is the outstanding Labor writer of his time.

The two Sidneys, one a financial expert and one a Labor expert, both dignified, well educated, able, should have no difficulty in upholding the cause of Labor in the House of Lords.

Julius B. Beer has just issued a book on commodity exchanges. The book is of interest to everyone—business man, student, or expert. All will be fascinated by it.

Mr. Beer speaks as "one having authority," for he knows commodity exchanges at first hand. Member of the New York Commodity Exchange, he has handled the rubber, silk, metal, hide and other exchanges, he deals with them daily.

This book supplies the first complete description of every phase of the operation of commodity exchanges, and their place in the commercial world.

What do they do? How do they work? What is a hedge? Is speculation in the commodity markets good or bad for the country? These and other questions Mr. Beer answers for us in his book.

Beyond a doubt every one interested in "seeing the wheels of our commerce" will find this book a most valuable addition to his library.

The will of J. Delaney Day, president of the Citizens Savings Bank and Trust Company, was filed for probate by the law firm of Humm, Britt & Osgrove late yesterday afternoon.

The instrument is very brief, stating that the testator had no children, and naming Mrs. Nancy Adams Day, the widow, sole legatee. The will was dated October 23, 1928.

The estate of Mr. Day was not evaluated, it simply being stated, according to law, that it is "in excess of \$10,000."

Total Sales for Day Over
4,000,000-Share Mark

NEW YORK, July 1. (AP)—The stock market today was characterized by a brisk rally, with many stocks advancing in spite of a money market that remained tight. The Dow Jones industrial average closed at 291.46, up 15.46 points from the previous day's close.

CALL RATE SOARS
The call money rate was reported at 15 per cent today, up from 12 per cent a few days ago. This increase was attributed to the Federal Reserve Bank's recent action in raising the discount rate.

EARNINGS AND RAILS
The earnings of the railroads for the first six months of the year were reported to be up 15 per cent over the same period last year. This was due to increased freight traffic and higher rates.

The First California Bond House Offers
MID-YEAR INVESTMENT SUGGESTIONS

DURING the past 42 years, this organization has helped thousands of investors to meet and successfully solve their July investment problems. In planning a sound investment program, we believe you, too, may benefit from the wide experience and unusual facilities of the first California bond house. From the standpoint of security, income and all-round dependability, the following securities have been selected from every important market to meet the most exacting requirements of conservative investors.

Table with 3 columns: Bond Name, Maturity, Approx. Yield

MUNICIPAL AND DISTRICT BONDS		
City of La Verne 5's	1930-59	4.70

Metropolitan Buildings

A RECENT survey covering 40 leading cities of the United States shows that the present vacancy in downtown office buildings is only 11.88%, a figure which has shown little fluctuation during recent years despite the addition of many millions of square feet of office space. Today, in these 40 cities, there are 90 new buildings under construction with a total area of 17,175,000 square feet. Financing of this construction program offers unsurpassed opportunities for sound and profitable investment. First mortgage bonds of downtown buildings are backed by a security value that is steadily growing with the up-building of great urban communities.

Our offering list always contains a group of representative building bonds carefully selected from various American cities. Outstanding among current opportunities are several issues of first mortgage fee bonds secured by Class "A" buildings located in the metropolitan district, priced to yield from 6% to 6.50%.

METAL MARKET RULING STEADY

Prices Hold at Old Levels on
Moderate Buying

Conditions Held Favorable to
Advance in Zinc

Copper Producers Confident
of Controlling Situation

BY CHARLES F. WILLES

(Editor, The Market Journal.)
Prices firm, buying fair characterizes the metals this week. There has been no price change except a tendency upward in the case of zinc, which is held at 67 1/2 bid and 68 1/2 asked f.o.b. St. Louis. Copper remains as it has been for many weeks, 17 1/2 f.o.b. refinery and lead at 7.00 f.o.b. New York.

The large zinc producers are either out of the market or are asking 4.00. While the metal sold is bringing 4.70, only a moderate tonnage is available from smaller producers at this figure. Even the smaller producers are not selling for delivery beyond August.

The world zinc production for May totaled 140,579 tons. Of this 54,958 tons came from the United States, 18,800 tons from Belgium, 14,333 tons from Poland, 10,045 tons from Germany. The zinc production in April was 136,107 tons. The daily rate of production during May was 4538 tons as against 4571 tons in April and an average of 4421 tons for the first five months of this year. The average rate last year was 4308 tons. The May production of zinc furnished a new high record for all time.

ADVANCE FORECAST

The lead producers are anticipating a slightly higher price for that metal, based upon a larger demand expected and better European conditions. While August lead is being sold at present prices, the producers are selling unwillingly and are not seeking business. The European weakness has been largely removed by Russian buying.

Production of crude lead in the United States and Mexico totaled 63,024 short tons in May, against 61,546 tons in April and 61,123 tons in March. Production of refined lead amounted to 40,532 tons in May against 40,736 tons in April and 41,731 tons in March.

Stocks of refined lead in the United States and Mexico came to 51,748 tons at the end of May against 50,394 tons at end of April and 51,126 tons at end of March. The increase in lead production during May was caused by the fact that certain producers in Mexico had accumulated a supply which they could not move previously due to Mexican conditions and that they showed in the May totals. The statistical change is, therefore, only of a temporary nature and does not reflect any changed production conditions.

CONFIDENCE INCREASING

Confidence in the ability of the copper producers to keep the price level up to 18 cents has been increasing, but it has not started any buying of large lots. The producers are still out of the market although

RECORD CONSUMPTION

Record copper consumption to domestic consumers is still keeping up. The consumption during the first five months of 1929 was 27 per cent larger than during the same period in 1928, totaling 47,000 tons in 1929 as against 36,952 tons last year. Exports showed a reduction of 3 per cent during the same period. Total deliveries for the first five months of this year were 31 per cent in excess of the whole twelve months of 1928.

The extra good financial condition of the copper industry has reflected itself into the dividends paid during the month of June. The large disbursements made by the copper companies brought a record month totaling \$97,400,000, this being about \$3,000,000 in excess of any previous month and about \$14,000,000 in excess of the payments made last June. Dividend disbursements larger than usual were made by ten copper companies out of the forty companies on the list.

CURTAINMENT SUFFICIENT

Statistics indicate that the 10 per cent curtailment of production put into effect by the copper producers early in May is ample to meet the situation and that no further cut is likely to be necessary to maintain the present price. Charles Hayden, director of many of the large copper companies, is quoted as stating that the world copper consumption is now equal to mine output. Following as it does the expression of a similar belief by J. D. Ryan, it would indicate that in producing circles at least there is confidence that a heavier buying volume will be witnessed shortly as such a development would be inevitable if current consumption is equal to mine output, domestic consumers having bought only a negligible tonnage in two months.

REARS, BOECKER EXPANDS

CHICAGO, July 1. (P)—Sears, Roebuck & Co. today announced the opening of its department store chain into cities of less than 75,000 population. The mail-order house also announced small retail stores will be established in Salina, Kan.; San Angelo, Tex., and Santa Ana, Cal.

LOS ANGELES EXCHANGE

Utilities Hit New Peaks as Market Strengthens
Despite High Call Money Rates

Fifteen per cent call money had little effect on security prices here as yesterday's session on the Los Angeles Stock Exchange proved the most active of any day of the past week. While some irregularity crept into the public utility list lead a series of notable advances scattered throughout the various sections of the board.

Pacific Gas and Electric and Pacific Lighting again struck new high prices for the year and Southern California Edison swung up to equal its peak for all time. Pacific Gas was in constant demand and on an spirited turnover shot up 3 points to a top at 73 1/2 and on subsequent trading closed at 72, up 1 1/2 points net. Pacific Lighting marked a record at 94 and ended at 91 1/4, up 3 1/4 points net. Edison jumped 7-8 to its top at 67 1/2, and finished the session at 65 3/4, up 1-4 net.

A Broad List Offerings

CAREFUL investors consider securities in many fields. Issues of electric companies, of gas and telephone companies, foreign governments, and the better industrial corporations, all have their places on a well balanced investment program.

In making selections it is well to depend upon a hand house maintaining a broad list of securities. A wide range of offerings, in ample amounts, is essential to permit proper diversification with adequate yield and marketability.

Our list of offerings, available for July investment, will be sent upon request.

NEW YORK BOND PRICES

NEW YORK, July 1. (AP)—Bond prices held to a steady course today, showing little variation from the previous close.

The recent issuance of postal obligations to a further decline was maintained and the strengthening of bond technicality, or the consequent of 7 1/2 per cent time money for all maturities, the lowest in months. However, the bond in the call money market, which is a minimum in all but the short-maturity range.

Convertible moved within wide range, their advance of from 2 to 4 points at the opening in such issues as Algonquin and the two series of 4 1/2 per cent telephone obligations was followed by a reaction which continued throughout the afternoon. However, most of the closed issues were able to show net gains for the session. International Telephone securities, a group in the new black, 134 1/2, Algonquin, 134 1/2, and the two series of 4 1/2 per cent telephone obligations, 134 1/2, a peak.

The American Telephone debtors after moving within a narrow range, and off to 14 1/2 for a issue of 1 1/2, 14 1/2, and the two series of 4 1/2 per cent telephone obligations, 14 1/2, a peak.

Heavy buying and selling in International convertible, a group in the new black, 134 1/2, Algonquin, 134 1/2, and the two series of 4 1/2 per cent telephone obligations, 134 1/2, a peak.

Rollins generally found a majority of the issues in the market, and the United States government's new issues, in the 4 1/2 per cent and 5 per cent series, were general, but held to the smaller fractions.

The market for the new issues of the United States government, in the 4 1/2 per cent and 5 per cent series, were general, but held to the smaller fractions.

The impressive record and
bright future prospects of

Public Utility Investments

FUNDS which have been allowed to remain in public utility stocks over the last five-year period practically without exception have brought substantial rewards to their investors. Cash dividends, stock split-ups and market enhancement in innumerable cases have made it possible to establish profits equal to the original sums invested, frequently many times over.

The current stage in public utility development is marked by decided tendencies toward unified control and common management, while the application of these factors has already resulted in substantial operating economies and consequently increased margins of profits.

E. H. Rollins & Sons, for years a leader in the underwriting and sale of public utility securities, continues to recommend their attractiveness as investments. We are now offering as a desirable purchase

General Water Works and Electric Corporation

CLASS A COMMON STOCK (NO PAR VALUE)

Price \$26.75 per Share, Flat

Listed on the Chicago Stock Exchange

Dividends are cumulative, and each share receives \$2 annually before any dividends can be paid on Class B Common. The stock is callable at \$45 per share. Holders will have the privilege, for the next two years, of applying their dividends to the purchase of additional stock at \$24 per share.

Additional information will be furnished at our office or by letter.

Heavy Delivery of Wheat Halts Brisk Advance

CHICAGO, July 1. (AP)—Sensationality had crop reports from Nebraska, the Dakotas and Canada brought about sharp upturns in wheat values today, but the gains failed to hold well. The receipts of wheat in the Southwest, together with heavy deliveries of wheat here on July contracts, were largely responsible for setbacks.

Closing quotations on wheat were unsettled, little above Saturday's finish. Corn closed 1/4¢ off, oats 1/4¢ off, and soybeans and provisions unchanged to 1/4¢ down. Reports were at hand today that because of excessive high temperatures, 100 days and above, the condition of the Nebraska wheat crop has been injured equal to 15,000,000 bushels in the last few days. Meanwhile, reports of rain in the Southwest, together with some dispatches today said 60 per cent of the crop is at a critical stage and that forty-eight hours of good rain would be needed to prevent further serious impairment.

Corn prices showed a downward tendency, owing to a good deal of moisture and warmth favorable to corn growth. In addition there were liberal receipts of corn here and in the Southwest. Chicago arrivals of corn today averaged 413 cars, compared with 319 cars a week ago and 103 cars last year. There were also heavy deliveries of corn here today on July contracts, 1,764,000 bushels.

A feature of the provision market was liquidating sales by holders of July contracts.

STOCK TRADING
TONE BUOYANT

(Continued from Fourteenth Page)

The plan was accompanied by only moderate rise in stocks of component fields.

Norfolk and Western rose nearly 7 points to a record price, and Atlantic Coast Line, Chesapeake and Ohio and Price counted 4 points and more to new high ground. New York Central and Pennsylvania advanced about 3 points to record levels.

Coke elevator was a spectacular performer, shooting up 20 points to a record price at 400, in anticipation of the rumored four-for-one split-up. International Business Machines jumped nearly 10 points to a new peak, and General Electric mounted about 10 points to a record price at 235, closing at 231. Air Reduction also made an extreme gain of over 10 points. American Gas, Union Carbide, Republic Iron and Steel, and Harbort Chocolate were other issues reaching new high territory. Motors were quiet, save for Packard, which mounted more than 5 points.

NEW MARKS SET

In the utilities, North American, Standard Gas and Detroit Edison reached new peaks in gains of 2 points or so, but such issues as American Power and Light, American Water Works, and Brooklyn Union Gas dropped about 3 to 5 points.

An outstanding weak spot was Macy, which dropped more than 10 points, presumably in selling on the report of the acquisition of L. J. Hammer & Co. of Newark. Allis Chalmers, Burroughs, Auburn, Coca Cola, Spitzer, Curtis and Western Union were among issues losing 2 to nearly 5 points.

Commodities were irregular, cotton dropping \$1 to 52 a bale on heavy crop reports, while Canadian crop reports, while on sugar, which jumped 6-10 of a cent to 44.25 cents.

BOY KILLER BRANDED AS DELINQUENT

Kentucky Lad Paroled to Children's Bureau But May Stay With Parents

PAINTSVILLE (Ky.) July 1. (AP) Carl Newton Mahan, 6 years of age, who was saved by a higher court order from a fifteen-year reform-school sentence for killing a playmate, today was held to be a delinquent by County Judge Butler.

The boy was paroled to the Kentucky Children's Bureau, a State agency which acts in an advisory capacity for delinquents. Pending arrival of Mrs. Emma Hunt, Louisville, director of the bureau, he again was returned to the custody of his parents.

Counsel for the boy announced that if the bureau permits him to remain with his parents no objection will be made to the order declaring him a delinquent. The bureau, in most cases it has handled since it was created in 1928, is said to have left children paroled to it with their parents, exercising a visiting supervision over them.

RUBBER MARKET

NEW YORK, July 1. (Reuters)—Crude rubber on the local exchange today opened 10 to 20 points above Saturday's close. The market was unchanged at 20 points higher. The market was unchanged at 20 points higher. The market was unchanged at 20 points higher.

Direct-U Service

Talk when to buy or sell—on the radio. Quick, accurate, free service. Call up the LOS ANGELES TIMES and ask for Direct-U. MEtropolitan 0700.

Here is no small-town self-satisfaction!

CALL A SMALL TOWN INSTITUTION... by important financiers... we still claim that distinction... in the MUTUAL Building and Loan Association OF POMONA... together with all the old-fashioned attributes of carefulness and economy... that go with our small-town characteristics.

With \$15,000,000 resources and \$3,000,000 paid-in capital, surplus and reserve, we HOLD STATE RECORDS... We have been told that our pioneering effort through 26½ years has helped raise the standard and prestige of building and loan associations in California, BY OUR OLD FASHIONED ECONOMIES.

WE HAVE HAD ONE LOAN-LOSS... through 36½ years... which is a record unchallenged by ANY financial institution in California... so far as we know... and we credit it to our small-town background... of Pomona Valley cautiousness and conservatism.

Our neighbors and friends in Pomona Valley have built the MUTUAL Building and Loan Association of Pomona to be the Valley's largest financial institution. WHY? They know our safety. A continuous independent audit, published monthly, is always at your service for analysis.

Fourth in Los Angeles, in size, we still keep our 10th floor offices in the L. N. Van Nuys Bldg., because that economy is in line with our small-town ideas of safety to you, and 6%. As for 36½ years, we have the small-town peculiarity of refusing new 6% accounts when our sufficient sound loan applications for the use of new funds are not on hand. We welcome old-fashioned clients who make us PROVE our conservatism.

OIL NEWS

BY PORTER FLEET

In order to restore production in three massive wells, and better the output in nine others, the Easter Oil Company has made arrangements to pipe dry gas from the Santa Fe Springs field to the Torrance field, where it has twelve projects.

Nine of Easter's projects are putting out a total of about 300 barrels of oil per day, all from a depth of about 700 feet. Three other wells in the same area sometime ago ceased to produce because there was no longer sufficient gas to lift the oil.

According to the reports, steam-driven compressors will be installed so that a test may be given the Easter No. 8, and if that proves successful, the remainder of the group will be prepared so that gas can be forced down the various holes to bring out more oil. The test will be tried in a day or two, it is said.

New Completions

The Bandini Petroleum Company yesterday brought in its Bandini No. 14 well, at Santa Fe Springs, for an initial output of 11,300 barrels of oil per day, along with about 8,000 cubic feet of gas per day.

This makes Bandini's third completion in the eastern end of the field, and places the Bandini No. 14 nearly on a par with the Easter Company's Bandini No. 4, which came in recently for a daily output of approximately 12,000 barrels of oil. The Bandini No. 14 is producing from about 420 feet of formation, cemented off at 680 feet.

The Bandini No. 13 had a successful water shut-off test, according to reports, at about 675 feet. A test was made and it put out approximately 200 barrels of oil per day from ten feet of formation, but was killed and will be drilled, perhaps 300 feet deeper.

The Richmond Oil Company brought in its Industrial No. 1 well at Santa Fe Springs, and is putting out about 300 barrels of 34½ deg. gravity oil per day from a depth of 664 feet, along with 4,000,000 cubic feet of gas per day. This well formerly produced from the Buckeye sand.

The Union Oil Company's Bell No. 43 at Santa Fe Springs, yesterday

GIRLS TO BREAK SHIP TRADITION

Young Women Stewards to Serve in Grace Line Dining Saloon

NEW YORK, July 1. (AP)—An ancient tradition of ocean passenger service will pass on Wednesday when fourteen young women replace the dining-room stewards on the Grace motor liner Santa Barbara.

Hitherto on all lines since the earliest days of steam dining-room personnel have been strictly male. The girls will receive the same wages as did the former stewards.

The Santa Barbara sails Thursday for the west coast of South America.

Today came in for an estimated flow of 200 barrels of oil per day. Bottom of the hole is at 680 feet. The oil tested 34½ deg. gravity and is clean, according to reports.

The General Petroleum Corporation completed its Jalk No. 112 at Santa Fe Springs, for a daily yield of approximately 1300 barrels of oil, from a depth of 800 feet, in the lower Clark sand. This project is believed to be the second deepest completed in the State, as the Associated Oil Company's Clark No. 2, in the same field is putting out from a bottom at 2100 feet.

At Seal Beach, the Marland Oil Company placed on production its Baby No. 8, which is yielding 1400 barrels of 27 deg. gravity oil per day from a depth of 550 feet.

The Standard Oil Company completed its K.O.L. No. 3-3 well, northwest of Bakersfield. It is putting out about 200 barrels of oil per day with bottom of the hole at 4771 feet. When placed on the pump, this project made considerable water, but eventually it settled down and is flowing by gas lift.

At Santa Fe Springs, the Texas Company brought in its Baisan No. 8, for an initial output of approximately 200 barrels of oil per day from the O'Connell sand, testing 34½ deg. gravity, along with about 8,000,000 cubic feet of gas per day. This well is a recompletion, formerly making about 1100 barrels daily before being killed to deepen.

To Try Again

Field reports state that Graham & Lufkin will go back into the Blinn No. 1 well, at Fortuna, and make an endeavor to place it on production. This project has flowed by heads at various depths, only to stand up, or test wet, according to reports. The hole will be cleaned out, it is said.

Swabbing

The General Petroleum Corporation yesterday continued to swab the O'Connell No. 2 well at Kettleman Hills, and was encountering considerable gas at about 3500 feet, according to reports, with bottom of the hole at about 6900 feet.

All but 148 feet of the three-inch drill pipe has been recovered, according to reports, and it is thought that would not interfere a great deal if the well comes in as a producer.

To Test Shortly

The Easter Oil Company's Edwards No. 1 well, offset to the Olympic Oil and Refining Company's Leona No. 1, in the Palmdale field, west of Santa Barbara, is standing cemented at 2200 feet in a shallow body of shale, and will be drilled and swabbed, with bottom of the hole at 2300 feet.

Rather good oil sand was picked up at 2180 feet, although it was hard to be thoroughly saturated. Eleven and three-quarter-inch casing is set to 2230 feet.

The William Rhodes No. 1 well, yesterday was running at about 1800 feet. J. O. Sevier's No. 1 is drilling ahead below 1900 feet.

A deal to resume operations on the Ring Oil Company's Nugent No. 1 well, but a short distance from the Leona No. 1, is reported to have been delayed temporarily. It is not definitely known when operations will be resumed, it is said.

Making Headway

The Shell Oil Company continues to make excellent progress in its Nees No. 11, at Signal Hill, and is making about fifteen feet of formation per day, with bottom of the hole below 6600 feet. It is drilling in shale, streaked oil sand and gray sand, according to reports, and is daily becoming the deepest well in the world.

A production test will be made shortly in Shell's Bardall No. 1 at Lawndale. This project tested wet several months ago, although the test was a fairly good showing of oil. It was deepened to about 6800 feet for the new test.

Steady Output

The Bandini Petroleum Company's No. 10 which came in two weeks ago for a daily output of 10,000 barrels of oil, is flowing 8000 barrels per day into tanks, according to reports.

The Bandini No. 8 No. 16 and No. 18 are milling ahead in the O'Connell sand, according to reports, with indications of being completed shortly.

Flowing by Heads

The M.E.C. Oil Company's Foster No. 2, being drilled by the Associated Oil Company in the Ventura-avenue field, yesterday was reported to be flowing by heads, with bottom of the hole at 1200 feet. The Perry No. 1, while swabbing yesterday, is said to have tested wet, with bottom at 700 feet.

The Pen-Kann Oil Company's Francis No. 1, in the same field, while swabbing got tied up in a fishing job, according to field reports.

The McKean Drilling Company's No. 2 well at Santa Fe Springs, which caught fire several weeks ago, is reported to be putting out approximately 1000 barrels of oil per day. The oil is being drawn through a hole in the casing out below the ground, so that the flames will be down enough to be smothered out.

The True Salesman

"Are you sure these eggs are fresh?"

"Just a minute, madam, and I'll see if they're cool enough to sell."

Gunman Taken as Suspect in Marlow Killing

NEW YORK, July 1. (AP)—Police believed today they were near the solution of the slaying of Frank Marlow, gangster and gambler.

They had David Grosse, alias Daniel Grosse, gunman, behind the bars, believing that a supply of bullets found in his possession were similar in make to those that killed the Broadway racketeer.

Grosse was formerly a friend of the racketeer and they had engaged in the beer-running business together.

Since the \$200,000 mail robbery at Elizabeth, N. J., in 1928, however, Grosse has been in hiding, facing a charge of first-degree murder in connection with the hold-up.

Building-Loan Resources Gain

Resources of the Pacific States Savings and Loan Company crossed the \$400,000 mark as of June 26, last, which places the company in seventh place among the largest building-loan associations of the United States, it was announced yesterday by the company.

The institution's savings and investment customers now number more than \$4,000 among the company's seven-teen offices, in this State.

In June its savings increased about \$200,000 due to internal development and partly through the purchase and consolidation of the Pioneer Building and Loan Association of Modesto. During the current month the company expects to add another \$50,000 by another consolidation and through reinvestment of July funds.

In June its savings increased about \$200,000 due to internal development and partly through the purchase and consolidation of the Pioneer Building and Loan Association of Modesto. During the current month the company expects to add another \$50,000 by another consolidation and through reinvestment of July funds.

WORLD-WIDE BANKING CONCERN OPERATIVE

Alliance of the interests of the Chase National Bank of New York, the Chase Securities Corporation and the American Express Company, creating a world-wide banking organization, becomes formally effective today with the receipt of \$65,770,000 from stockholders in payment for additional shares and the issuance of new stock in exchange for American Express Company shares, the Chase Bank and Chase Securities Corporation today will have approximately \$100,000,000 in capital, surplus and profits.

The demand of Adolf Uhl, defeated Mayoralty candidate, that the Municipal Railway set aside 3 per cent of its income for a depreciation fund before meeting bond interest and redemption was refused today by the Board of Public Works. Uhl served notice he will fight to force them to do this in the courts, carrying his case to the United States Supreme Court if necessary.

STREET RAILWAY FUND BATTLE PROMISED

SAN FRANCISCO, July 1. (Exclusive)—The demand of Adolf Uhl, defeated Mayoralty candidate, that the Municipal Railway set aside 3 per cent of its income for a depreciation fund before meeting bond interest and redemption was refused today by the Board of Public Works. Uhl served notice he will fight to force them to do this in the courts, carrying his case to the United States Supreme Court if necessary.

THREE MURDERERS' CONVICTIONS STAND

SAN FRANCISCO, July 1. (AP)—The State Supreme Court today affirmed the convictions of three convicts found guilty of the murder of an Oakland bank clerk in a robbery there last July. The three men, George Costello, Louis Lasarus and William O'Brien, alias Joseph Murray, held up the Seventh-street branch of the Bank of Oakland. William McFarlin, clerk, was killed by one of the bandits. Evidence showed Lasarus fired the fatal shot.

A Quick Change

Midwest: What did they have for breakfast at your last place?
New cook: I dunno. They ain't got up when I left.—(Humorist).

EARNINGS FORECAST OF CANADA GOODYEAR

TORONTO, July 1. (Exclusive)—Goodyear Tire & Rubber Co., Ltd., completed the first nine months of its current fiscal year, June 30, last, with a production total 23½ per cent larger than for the same period last year, according to President C. H. Carleton. For the full year, the net income should equal \$30.98 a share on outstanding common stock as against \$18.97 a share in the previous twelve months.

PENNSYLVANIA CRUDE OIL PRICE REDUCED

PITTSBURGH, July 1. (AP)—Pennsylvania grade crude oil in New York Transit Lines and Bradford oil in National Transit Lines, were reduced 5 cents to 24½¢ today, and Pennsylvania grade crude in National Transit Lines was increased 5 cents a barrel to 24.05¢. The changes were effective today.

ZONITE PLANS FOR RIGHTS OFFERING

NEW YORK, July 1. (Exclusive)—Zonite Products Corporation, subject to the approval of its stockholders the 11th inst, will offer one additional share at \$30 for each share held. The proceeds will be used to acquire Barnes Chemical Company of Philadelphia, if present negotiations are concluded.

HERMETIC BODY INCORPORATES

Oakland Home of Atlanta
Lester Elephant
Brotherhood

SACRAMENTO, July 1. (AP)—The Hermetic Brotherhood of Atlanta Lester Elephant of Oakland, described as a private and religious corporation, filed articles of incorporation with Secretary of State Jordan today.

Directors of the East Bay organization are named as Richard W. Sussman and John W. Garry of Oakland and Roscoe G. Henderson of Oakland.

Educator Takes Leap to Death in Kansas City

KANSAS CITY, July 1. (AP)—Edward Gray, 37 years of age, reputedly wealthy and a former educator at Carthage and Webb City, Mo., committed suicide here today by jumping from the eighth floor of the Lathrop Building.

A suicide note found on the body said he feared he was becoming insane and advised officials "not to waste any public money on an inquest."

Mr. Gray, with his sister, Miss Leta Gray, both of whom have been living recently in Los Angeles, a few weeks ago completed a trip around the world. Gray was not married.

Gray was a son of a pioneer Carthage merchant. He had announced his intention of returning soon to California.

Hotel Claims Bar Deduction

SAN FRANCISCO, July 1. (AP)—Asserting an exemption of \$50,000 loss of income through the closure of the old St. Francis Hotel bar in 1920, the Crocker Hotel Company and the San Francisco Hotel Company, then operators of the hotel, today laid their claims before the United States Board of Tax Appeals.

The exemption is claimed under the normal revenue tax law which permits deductions of loss sustained under operation of the prohibition law.

Bettman to Aid Study of Crime

WASHINGTON, July 1. (AP)—Alfred Bettman of Cincinnati, has been selected as one of the technical advisers of President Hoover's law-enforcement commission.

It will be in charge of that section of the commission's work relating to the efficiency of prosecution machinery in the administration of criminal law.

He is a former City Solicitor of Cincinnati and during the war was a special assistant to the Attorney-General of the United States.

STREET RAILWAY FUND BATTLE PROMISED

SAN FRANCISCO, July 1. (Exclusive)—The demand of Adolf Uhl, defeated Mayoralty candidate, that the Municipal Railway set aside 3 per cent of its income for a depreciation fund before meeting bond interest and redemption was refused today by the Board of Public Works. Uhl served notice he will fight to force them to do this in the courts, carrying his case to the United States Supreme Court if necessary.

BANK STOCK TRUST SHARES

SERIES C-3
AN INVESTMENT TRUST OF THE UNITED STATES SHARES CORPORATION BASED ON NEW YORK CITY BANK STOCKS

One Year's Dividends

Semi-Annual dividend paid July 1, 1929, shareholders of record June 3, 1929, is

\$2.90 per share

This is at the rate of 28.13 percent per annum on the June 3, 1929, ex-dividend price.

Reserve fund on that date was \$2.00 per share, sufficient in itself to maintain dividends at a normal rate of five percent per annum on this ex-dividend price for over a year.

Price June 2, 1928, was \$25.00 per share. Dividends for one year have been 14.64 percent on that price. Rise in market value was 26.5 percent in one year, making combined income and appreciation 41.34 percent.

Striking though this advance appears, it is less than the seven-year average of 36.44 percent per annum for the leading New York banks originally included in this group investment.

Year after year, income and values have been climbing upward.

New York banks are now leading a movement of merging and grouping which has not only national, but world-wide significance.

Opening of "Buddy" Davis Bribe Trial Reveals Plans of Defense

ATTACKS FACED BY BEN GETZOFF

Testimony of Tailor Will be Target of Offensive

Down Prospective Members Placed in Jury Box

Court Orders Judge Doran's Statement Guarded

Defense guns in the Davis bribery case, which was held before Superior Judge Wilson yesterday, will be trained on Ben Getzoff, Springfield tailor who was convicted of bribery - conspiracy charges together with former Dist. Atty. Keyes as the outgrowth of the Julian fraud case prosecution.

Getzoff, who will be called as the prosecution witness in the Davis case, brought about the indictment of Harold L. (Buddy) Davis, former chief deputy District Attorney, following his own conviction, by a statement before the grand jury in which the former tailor declared that he had paid Davis \$7500 to "lie down" on the prosecution of Ed Rosenberg, one of the Julian defendants.

Yesterday Defense Counsel D'Orr while questioning Superior Judge Doran during the course of a deposition taken from the jurist, because of his proposed absence from the city during the present trial, disclosed the coming attack on Getzoff.

The testimony given by Judge Doran, which may be introduced later during the trial, was of such a nature that Judge Wilson requested the press to refrain from its publication until it was offered in court and ruled on.

JURY BOX FILLS UP

With the exception of the Doran deposition the proceedings yesterday were dull and dry. At the close of the court day three men and nine women were in the jury box passed for cause by both the defense and prosecution. They were ordered locked up for the night by Judge Wilson.

During the day thirty-one prospective jurors were examined. Eight were dismissed by stipulation, five were discharged for cause, three were the victims of prosecution peremptory challenges and three fell by defense peremptory challenge.

Attorney D'Orr, who examined the prospective jurors for the defense, took much time and pains with each new one. He questioned them regarding the Keyes case and other charges of corruption, which were brought against the administration of the former District Attorney's office.

PLANS GUARDED

Little could be learned relative to either the prosecution or defense plans from the jury questioning except that the defense is going to attack Ben Getzoff's story and may call Dist. Atty. Pitts as a defense witness and that the prosecution is banking its case in chief on the Getzoff confession.

In the jury box at the close of the session yesterday were Charles E. Stevens, Mrs. Elizabeth M. Nelson, Mrs. L. Dunaway, Perry Byrly, Mrs. Anna Callahan, Beanie B. Forner, Mrs. Lilla R. Robinson, Mrs. Elizabeth Leggett, Mrs. Alfred Barnes, John J. Shedron, Mrs.

Former Aide of Dist. Atty. Keyes Goes to Trial

Left to right—Thomas A. Reynolds, defense counsel; Harold L. (Buddy) Davis, defendant; Paul R. D'Orr, chief counsel for defense; Dep. Dist. Atty. Simpson; and Chief Deputy District Attorney Stewart.

PIKE QUERY ENDS TODAY

Grand Jury Will be Ready for Disposal of Case After Questioning Four Witnesses

Courtroom spectators were amazed by the various answers of prospective jurors as they squirmed and wriggled in the effort to escape serving on a jury where they will be locked up during the duration of the trial.

FEW READ PAPERS

Much amusement also was caused by the various persons under examination who declared from the jury box that they had not read in the newspapers of the Julian fraud cases, the Ben Getzoff confession or the arrest of Milton Pike. One after another many of the jury panel examined yesterday declared that they read only headlines in the newspapers and knew nothing of the case. A few admitted that they do read the newspapers and know of the case now going to trial.

John J. Shedron of 5618 Range View avenue, who was in the jury box as No. 10 at the end of the court day yesterday, answered Attorney D'Orr in the negative when asked if he ever heard of any of the issues in this case, the Julian case, the Keyes case, or any of the litigation which grew out of the entire Julian matter. Also he declared that he does not know any of the counsel on either side, Dist. Atty. Pitts, or anybody else connected with the various cases. He declared he never had heard of Ben Getzoff, but under pressure by D'Orr admitted that he "might" have heard of the Julian fraud cases. He said that he believes himself qualified to try the Davis case.

From courtroom observations late yesterday afternoon both defense and prosecution counsel declared that a jury may be obtained late today but that Wednesday is a more probable time for the beginning of testimony.

INQUIRY INTO WYNN DEATH CONCLUDES

Investigators Determine Drowned Man Suicide or Accident Victim

An investigation into the death of J. C. Wynn, 72 years of age, of 132 California street, Montebello, whose body was found Saturday floating in the ocean off Point Dume, was brought to a close yesterday with the determination that it was a case of self-destruction or accident.

Wynn's body was picked up by the steamship Humboldt and taken to San Pedro. For a time it was believed that it might possibly be that of William Loren Tallman, sought for the murder of Mrs. Virginia Petty.

The drowned man was identified through the efforts of Deputy Sheriff Gompert of the homicide detail. By means of a water-soaked and badly defaced hat check Gompert learned the man's name and located a nephew, Byron T. Miller of Montebello.

Wynn left his nephew's home June 18, last, in a despondent mood, apparently bound for Catalina Island, according to Miller. The portion of a Catalina ticket entitling the bearer to ride from Wilmington to Los Angeles was found on his body. Some time after Wynn came into possession of \$4000 from the estate of a brother, which he lost, according to Gompert.

PORTER HEARS HARBOR REPORT

(Continued from First Page)

be provided for. The time now has arrived when local passenger service between various terminals and industries must be provided and steps have been taken to that end.

The report points out the need for a rapid and adequate ferry service between San Pedro and East San Pedro and in regard to breakwater matters says:

"During the last few years a great deal of study and attention has been given these two matters, but owing to differences of opinion which have existed in the community involved, no determination has been reached. This department has offered what is believed a solution of the difference and has attempted at all times to be of constructive service."

A hearing by the War Department is to be held in November of this year and the local communities immediately should take up this problem so that proper presentation may be made at the hearing.

Leases and permits and the need for not blocking future expansion, as well as water and power department, the fire department, the playground and recreation department, Board of Education, fire alarm division and engineering department.

NEW CONSTRUCTION

Construction of a modern coal oil-loading wharf, a fumigating plant for handling cotton for foreign shipment, and development of comprehensive plans for future harbor developments are listed in the report. In regard to finances, the report states:

"Prior to 1924 contributions by the department to carrying charges on harbor improvement bonds were not made. However, as a part of the business practices adopted, it was felt that such contributions should be made and a policy of payment was adopted. Total contributions have been \$5,377,000 and it is announced that the contribution of \$1,800,000 for this year enables a reduction of 14 per cent in the city tax rate.

"Several months ago a study was made to determine if revenues accruing were sufficient to carry the investments involved. While revenues have increased over 75 per cent in 1928 and will exceed \$2,000,000 this year, and while direct expenses have decreased, leaving a 36 per cent increase available for betterment and carrying charges, still certain classes of facilities do not pay their way. A committee of qualified citizens, having no direct interests at the harbor, is now working on the adoption of principles that will place them on a self-supporting basis."

The report is signed by President Walter B. Allen, Vice-President J. A. Crawford and Commissioners E. Burge, F. M. Anderson and Emerson Spear.

SCHOOLS UNDER NEW DIRECTION

(Continued from First Page)

president of the Union Pacific system, will serve as chairman of the law and rules committee, together with Mrs. Carrie Parsons Bryant and Mrs. Letitia Lytle.

The finance committee will be headed by Harry E. Backusville, E. E. Calvin and Mrs. Letitia Lytle will assist. The purchasing committee will have Arthur W. Eckman, Harry E. Backusville, E. E. Calvin and Mrs. Letitia Lytle will assist.

Teachers and schools committees will be headed by Mrs. Clark, assisted by Mrs. Bryant and Mr. Backusville. The building committee will have Mrs. Bryant as chairman, with Mr. Calvin and Mr. Eckman as assistants. Insurance will be handled by Mrs. Lytle, Mr. Eckman and Mrs. Clark.

Mrs. Letitia Lytle will serve as chairman of the committee of the whole. Mr. Van Norman as president, and Mr. Backusville as a member of all committees.

The bid of the Woodstock Typewriter Company of \$71,135 for 1000 used typewriters owned by the Board of Education was accepted. A purchase of 1491 machines has recently been made from this company at a cost of \$80,000. This sale of used machines will make the actual cost of the new typewriters about \$130 each. The next high bid on the same machines was \$92,447 made by the Royal Typewriter Company.

HOWARD FIGHTS FOR NEW TRIAL

Sentence After Conviction for Murder Delayed

Pasadena's Attorney Will Attack Jury Finding

Cooley Slayer in Battle to Escape Gallows

John L. Howard, convicted of first-degree murder in connection with the fatal hammer attack April 16, last, on his employer, Victor A. Cooley, Pasadena automobile man, yesterday procured a delay of sentence until tomorrow, when his attorneys filed a motion for a new trial.

Under the verdict returned last week, Howard faces death on the gallows unless he obtains a new trial on motion or appeal.

His motion for a rehearing of the case is based on the usual grounds and sets forth that the evidence was insufficient to justify the verdict, that the jury's decision was arrived at by lot and that the court erred in instructing the jury. Howard's attorneys contend the jury was not justified in bringing in a verdict carrying with it a heavier degree of punishment than manslaughter. The statement also is made that new evidence, which could not be presented at the trial, has been discovered.

Howard, the state charged, killed Cooley in order to remove the latter as an obstacle in the path of Howard's pursuit of the affections of Mrs. Pearl Cooley, widow of the slain man.

On the witness stand Howard denied he struck his employer and also repudiated a so-called confession on the grounds he made the statement in order to save Mrs. Cooley, whom he was led to believe had been taken into custody in connection with her husband's death.

The case was prosecuted by Chief Deputy District Attorney Jordan and Dep. Dist. Atty. Aggeler, while Attorneys Josiah Coombs and John A. Dewese represented Howard.

PORTER SCORES POWER BUREAU

(Continued from First Page)

which are fundamental and must be recognized. The law is primarily for his protection, not for his persecution, and when we restore in the public mind that confidence and belief that all lawful citizens' machinery are for the people's protection, then we will truly have procured that respect for law which will make of us a truly great nation.

The portion of the Mayor's speech which brought forth the greatest applause from the gathering was that which he devoted specifically to the Eighteenth Amendment to the Federal Constitution. He said in this connection:

"What we need is not more laws but proper enforcement and observance of existing laws. The Eighteenth Amendment could become effective overnight if the so-called bootleggers would refrain from patronizing the bootlegger. Without such support an industry of the magnitude of the present liquor traffic could not exist and it makes no difference what our individual opinion is of the present law, we must remember that it is an organic part of our Constitution and the violation weakens the entire law structure."

In discussing definite administrative problems such as those of taxation and burdensome special assessments, the Mayor merely passed the problems and said they would have his careful attention, without making any attempt to outline any conclusions he already had arrived at in respect to them. In promising these problems will receive the consideration they deserve, he said:

"What would you ask of me further than that it will be my earnest endeavor to place into effect a conservative business administration reducing expenditures to a minimum commensurate with the need and dignity of our city. This is all I can promise or hope to accomplish."

In closing, the Mayor pointedly took cognizance of criticisms which had been directed against him during the campaign, saying: "I expect to be Mayor for all without distinction of either race or creed."

He pointed to the fact that his campaign workers included Jews, Catholics and Protestants and said he is equally appreciative of the support of all of them and of the contributions to the welfare of the city by citizens of all creeds.

"And," he added, "Whether one is foreign born or native born makes no difference to me so long as he is a good American now."

That spirit of tolerance which the Mayor professed in his peroration was the keynote of the evening. Dr. Frederick P. Woelner of the University of California at Los Angeles, who was toastmaster, called attention to the fact that the speakers included a Catholic and a Jew and a negro. These were Isadore D. Dockweiler, Rabbi Ernest R. Trautner and Rev. A. R. Shaw, all of whom presented their co-operation to the new administration.

The invocation was pronounced by Bishop W. B. Stevens and at the close of the dinner a benediction was pronounced by Rev. Arthur Braden, president of California Christian College. Other speakers were Mrs. A. J. Lawton, director of the women's department of the Porter campaign committee, who introduced her chief coworkers; Albert E. Sherman, executive chairman of the Porter campaign committee, who also introduced the chief of his lieutenants; Superior Judge Edmunds, Rev. Gustav Bruegel and Rev. R. P. Shuler.

HEARINGS SET FOR TODAY

The Council today is scheduled to hear protests against the improvement of Bellingham avenue between Houston street and Riverside Drive and the improvement of Montecito street between Clifton street and Avenue 28. The Council also will take up the confirmation of assessments for the improvement of Broadway avenue between Hollywood and Sunset boulevards.

POLICE RENEW FRANKISH HUNT
Missing Ontario Man May Still be Alive
Wife Appeals for Aid in Reopening Search
No Said to Have Received Letters from Him

Mystery enveloping the disappearance of Charles Frankish, 31 years of age, wealthy resident of Ontario, was revived yesterday when Captain of Detectives Allen, in charge of the missing-persons detail, was asked to renew his search for the missing man.

The request was made by Attorney Crandick, Clute and Sullivan, representing Mrs. Earl B. Frankish, wife and attractive second wife of the missing man, whose efforts to locate Frankish declared officially missing and a trustee appointed to the charge of his estate met with success last Thursday when her papers came up for a hearing before the Superior Court at San Bernardino. This petition was opposed by Frankish's two adult sons and one daughter by his first wife.

According to the report placed in the hands of Capt. Allen by a representative of the firm of attorneys, Frankish left Ontario in October, 1928, in company with Leonard, one of his sons, ostensibly to make a trip to Europe. He had then been missing five years to the present. Mrs. Frankish, she has never seen or heard from him since, and, according to the report, she believes he is either out with food play or he is being confined somewhere and kept from her against his will.

Some time after his failure to return on schedule to Ontario, the fact it is set forth, dissolved the marital corporation Frankish had formed.

At the hearing last Thursday, according to the wife's report, the son, Leonard, introduced letters purporting to have been written by the missing man and tending to prove that he is alive and living somewhere in the East. Two of the letters had been written on stationery of the Hotel Judson, New York, and dated from there April 7 and April 8, 1928, and two mailed from Philadelphia May 9 and June 10, last.

Mrs. Frankish also stated, it was recalled, that his sister, Mrs. Mary M. Frankish, wife of Emil Strohe of Los Angeles, at present is living in her father's home, whereabouts, however, were not disclosed, it was learned further testified, in relation to the European voyage, that his father was with him in Paris, but left there first, and that they did not meet again until 1927 in New York. The report quotes Mrs. Frankish as doubting her husband made the trans-Atlantic trip.

MAN LONG MISSING REPORTED LIVING

Charles Frankish

Belief that her husband has been written by the missing man and tending to prove that he is alive and living somewhere in the East. Two of the letters had been written on stationery of the Hotel Judson, New York, and dated from there April 7 and April 8, 1928, and two mailed from Philadelphia May 9 and June 10, last.

NEW AIRLINE FOR HAWAII OPENS SOON
McAdoo Will Head Group in California Backing Interisland Operations

A new interisland daily airplane service connecting three of the principal Hawaiian Islands will be started September 1, next, by a company headed by William Gibbs McAdoo, it was announced here yesterday by Nathan Newby, Jr., a member of the board of directors.

Orders have been placed, Newby said, for two trimotored twelve-passenger Fokker planes, upon which delivery has been promised late in August. The entire working personnel, down to mechanics, has been organized and the service will be started immediately upon delivery of the planes. Walter A. Hamilton, chief engineer and vice-president in charge of operations of the Aero Corporation, will supervise installation of the new service.

The new company will be known as the Hawaii Airways Company, Ltd. The general board of directors here will include McAdoo, chairman; Jack Frye and Paul Richter of the Aero Corporation of California; Nathan Newby, Jr.; Nathan Newby, Jr. and one other Pacific Coast man to be selected.

The board of directors in the islands will include C. Fred Bush, president; John Nathan Young, vice-president; Frank Boyer, secretary; Worth Aiken, general manager and treasurer, and three other island residents to be selected.

The planes will operate between the islands of Hawaii, Maui and Kauai. The trip from Honolulu to Hilo, now requiring fourteen hours, will be shortened to three hours in the air, it was said.

Optometrists Open Campaign
Jury Selection Under Way in Dobbins Death

Optometry Week began yesterday, to continue until Saturday, during which period the local campaign of education is being sponsored by the California Optometric Association. Dr. Philip L. Reilly, vice-president of the association, said yesterday that modern people's eyes are seven centuries behind the times, and cites the prevalence of avoidable eyestrain to back up his assertion. Children of school age suffer the most, he stated.

Reilly urges that children between the ages of 1 and 8 years have periodic visual examinations to prevent serious trouble later in life.

PLEA GOES TO COMMITTEE
The request of the Police Commission for an appropriation of \$10,000 to remedy conditions at the Lincoln Heights Jail yesterday was referred by the Council to the Finance Committee.

Temporary Ban on Play Raised
Body Found in Lafayette Park Now Identified

United States District Judge Hennings yesterday dissolved a temporary injunction which had tied up the presentation of the play "Dracula." The temporary injunction had been issued on petition of John L. Balderston of London, author of the play, and Horace B. Liveright, assignee of his interests in the United States.

The injunction was directed against C. D. Woodward, who was reported as presenting the play at the Hollywood Music Box Theater. The action of the court permits further production.

PROTEST ACTION DELAYED
Consideration of protests against the installation of a sewer system in Denker avenue, between Ninety-second and Ninety-ninth street, was continued by the Council yesterday until the 15th inst.

The body of a man found in Lafayette Park on June 16, last, has been identified by fingerprints as Ray S. Ritzer, 34 years of age, of 1627 Edgewood avenue, Philadelphia, through files in the Department of Justice at Washington, according to a letter received yesterday by E. L. Barlow, fingerprint expert of the Police Department.

According to the letter the only record of Ritzer was an arrest in London, Kan., for investigation.

Since its discovery the body had been unidentified. Death was the result of bullet wounds in the chest but whether the man had been murdered or had killed himself the police were unable to determine.

Motor Patrol Retention by County Urged

Urging that the Board of Supervisors retain the motor patrol organization now in charge of Capt. Cannon, a letter from Frank O. Swain, traffic judge, was read at a meeting of the board yesterday.

The board has under consideration the new law by which a State motor patrol may be established in charge of the Motor Vehicle Department at Sacramento. Counties may, as an alternative to accepting the provisions of this law, maintain their own motor patrol.

County Counsel Matton was asked yesterday to prepare a digest of the new law.

Lincoln Heights Will Celebrate

Athletic contests, oratory, a band concert and fireworks will make up the Independence Day program at Lincoln Park under the auspices of the Lincoln Heights Commercial and Industrial Association. More than 100,000 persons are expected to be present Thursday.

The athletic contests will begin at 10 a.m. under the direction of Edwin Kirch. At 1:30 p.m. Harold Roberts' Golden State band will play, after which Norman Worley, chairman, will introduce William A. Wilson as speaker. The musical program will be continued until 4 p.m., and resumed at 7 p.m., accompanied by fireworks.

Ron Davis, William Dase, Norman Worley, John Clarke and Ralph Levy form the committee in charge, working in co-operation with Mrs. Mabel V. Socha of the park board.

Wirt Sentenced in Liquor Case

Lee A. Wirt, recently ordered tried by Superior Court for the murder of his wife, Mrs. Frances Wirt, was found guilty of possession of liquor yesterday by Municipal Judge McWay and sentenced to serve ninety days in the County Jail. Charges against Mrs. Wirt, who was named as codefendant in the complaint, were ordered dismissed by Judge McWay.

Wirt is accused of killing his wife with a shotgun at their home, 3739 Marengo street, on June 13, last. He was captured two days later at the home of a friend.

REUNION ANNOUNCED

Sixty-sixth Field Artillery Rally Set for Next Saturday

Celebrating the eleventh anniversary of their entrance into the Chateau Thierry sector, the Sixty-sixth Field Artillery Brigade will hold its second annual reunion in Los Angeles Saturday evening.

The brigade is made up of the One Hundred and Forty-sixth and One Hundred and Forty-eighth Field Artillery regiments, composed of National Guardsmen from the Rocky Mountain and Pacific Coast States. The brigade won distinction in the World War for having served through five major engagements and experiencing a longer period of actual battle service than any other unit in the American Expeditionary Force.

The celebration will be in the form of a dinner and entertainment. Reservations for the dinner now are being taken by Paul W. De Foe, 1123 Story Building.

TRIGONOMETRY TAUGHT

Two meet on Monday and Wednesday nights from 7 to 9:30 o'clock an evening college course in advanced trigonometry started last evening at university college, in the Transportation Building, Seventh and Los Angeles streets, in charge of Prof. Lewis Darwin Ames of the college of commerce and business administration of the University of Southern California. The summer night course will include advanced plane trigonometry and spherical trigonometry.

There is no beginning or end to this Sun-tan Vogue! It is a healthful idea... and youngsters, even toddlers, grow sturdy under the rays of the sun! Mothers no longer worry about their soiling their little clothes, for frocks and suits are made on simple lines. They tub readily, too!
SUN!
SUN!
SUN!

Eastern Heavyweights Clash Tonight In Feature Bout At Olympic Auditorium

OKUN TO FACE DICK DANIELS

Minnesota Youngster Gets First-Flight Test

Tackles Capable Slugger in Gotham Fighter

Morgan Expected to Star in Semi-Wind-up

Dick Daniels, Danish heavy-weight whom it is claimed to be a rival of Max Schmeling, makes his debut at the Olympic tonight against Yale Okun, New York's Jewish boxer.

While the spotlight is on Daniels chiefly because his future is ahead of him, Okun may upset the cards. Okun is 23 years of age, and Daniels is 19.

But Okun has been fighting top-notch light-heavy and heavy for the last four years—the length of time Daniels has worked himself up from a preliminary bantamweight to a 175-pounder.

Daniels claims to have scored over fifty knockouts on his way to the lead. He has not yet mingled with the first flight of big men, but is now ready to graduate.

UNDER COVER

Mick Collins has kept Daniels under cover at his club in Minneapolis for the last year. He says that Daniels is absolutely another Dempsey on the way. They came to California to prove it.

Collins would have rather sent the Danish boxing gladiator of the Vito Doman type than Okun's for this premier. Okun knows all the tricks of the fight game and may be able to tie in his younger opponent so that all his punching will mean nothing.

Daniels takes the attitude that if he is to get any place he will have to face the Okun type sometime and might as well be it now. The Dane says he will flatten Okun quick, and is going to leave the tape with that in mind.

Okun is not a heavy runner, but he has staying qualities. He has fought them all from A to Z. Nobody ever knocked him out, and he regards Daniels as an over-pumped youngster who is likely to remember his first California appearance by a defeat.

The weeks ago Okun boxed Leo Lomax in Portland, and the fight was as close as said it could have been a draw. He had fought Lomax three times before.

Okun has met Tommy Loughran twice, finishing second, but giving a good account of himself. He has won and lost to Joe Seiya, also to George Manley the same way. He has beaten decisions over Tony Marfisi, Matt Aggie, Earl Schaefer, Earl Blue, Harold Mays and others.

SCHMELING ON WAY

Schmeling will be in Los Angeles in a few weeks on a vaudeville tour. Felix will get a chance to compare the two heavyweights—Daniels, the Danish Jack Dempsey, and Schmeling, the German Dempsey.

LUTZE ACCEPTS MAT DEF

Youthful Nick Ready to Meet Joe Malcewicz in Olympic Sonnenberg Contender Bout

If Joe Malcewicz, the Utica mat sensation, wants to meet Nick Lutze in the finish feature event of the wrestling show being planned for the Olympic, on the 10th inst., all he has to do is sign up with "Carnation" Lou Duro for the bout.

That was Lutze's answer to Malcewicz's challenge yesterday. The Utican hurled a dart at Lutze for a best-two-out-of-three-fall bout, the winner to be considered as the logical contender for the Olympic title when the promoter brought the title-holder to the Coast for his next bout.

Lutze is said to have accepted several reservations to his challenge, but rather than accept any restrictions for a match of this caliber, he stated that his own challenge of a match with Malcewicz and the one of three weeks ago to any heavyweights in the game, still stands.

The certified check for \$5000, which was posted with Frank Morgan, chief inspector of the State

Tom Morgan, the Irish youth from Limerick whom Tom Kennedy is managing, was Jack Haywood in the six-round semi to the Daniels-Okun affair.

Being much better than Morgan is a very likely to send the heavyweights down where he is fighting a more open opponent than Daniels.

Haywood holds draws with Ned News Johnson and Joe Woods so is very far heavyweight copy. Morgan is a strong supporter of Haywood. He sells from \$500 to \$1000 worth of tickets every time he starts.

Bobby Norman and Marcellino Lomax clash in the special event which is six rounds. The two are Leonard Allan vs. Mat Ocan and Kenneth Johnson vs. Teddy Pelato.

Tod Morgan, junior lightweight champion, and Oddie Hess have already started training for their ten-round main event a week from tonight.

Baby Sal Sorio, who boxes Eddie Mack July 16, will establish a training camp at Long Beach, but will do most of his boxing in the gymnasium of Los Angeles. Mack is due here this week from Denver.

DUCKS TACKLE ANGELS TODAY

(Continued from First Page)

ture look brighter for Krug in the brilliantly pitching turned in by Ed Baecht. Last Sunday Baecht let the Ducks down with six-hits in the morning game and looks as though he'll be able to prove a winning pitcher, which is something the Angels are in dire need of. Deacon Pruitt also pitched a four-hit game last week, but lost through a lot of tough luck, 2 to 1. If Pitt and Baecht can come through along with Augie Walsh and Clyde Barfoot, the Angel hurling worries will be considerably lessened.

Walsh, who won thirteen games during the first half, will probably pitch the series opener for the Angels today. Augie is the most consistent chucker on the Cherub staff and Krug figures he will get the Angels off to a good start in the second half.

The Angels will have to perform at their best this week, for their big boss, Wrigley, will be on hand to see them in action. Wrigley spent a lot of dough for athletes and is paying them big salaries, and he wants to get action for his money.

The Ducks, although they finished in the cellar during the first half, are in the best shape they've been at any time this year and ought to make it an interesting series. Portland stopped the Oaks last week by winning four out of seven, which was quite a feat inasmuch as the Acons hadn't lost a series for some time.

Bodgers has his line-up slightly shifted since the Ducks last appearance here, a newcomer by the name of Odel appearing at second base. Richards has been moved to third, while Walters is performing in right field.

Either Leo Chatterfield, the Star cast-off, or Jack Knight is expected to be the Portland pilot's mound choice today.

While the Angels and Ducks are performing here the Hollywood Stars will be starting the second half at Sacramento against Buddy Ryan's slightly revised Seals.

The other series opening today find the Seals and Indians clashing at San Francisco and the Oaks playing host to the Missions, who won the first half in a walk.

The Reds still loom as the best club in the circuit and will be favorites to also cop the second half. However, the league is better balanced now and the chances for an upset are good enough to make the second half of the race look as though it ought to be interesting, which is more than could be said for the first.

THREE RINGSTERS IN CALCIUM TOMORROW

Sammy Aguirre, Tommy Huffman and Walter "Bang" Dunham step into the limelight tomorrow night at Wilmington when each goes to the post in his most important athletic engagement.

Aguirre performs in the main event against Sammy Jackson, aggressive and hard-hitting negro welter; Huffman boxes his first round bout and "Bang" Dunham has been promised a wind-up in event he stops or defeats Howard Ledtke, whom he meets in the six-round semifinal.

Dunham recently stopped Oscar (Red) Rankin, coral-topped negro middleweight, in four rounds to become an overnight sensation at the harbor arena.

Hunter Proved Best Mudder

Anglers Get Chance Soon at Grunion

HERMOSA BEACH, July 1. The little silvery grunion comes into his own at 2 p.m. next Sunday the sea-catchers will have been closed on these fish by the fish and game law previous to this date. Never has the angler of Southern California enjoyed better salt-water fishing than the present season, according to veteran fishermen, with the massive schools of barracuda creating a precedent with consistent runs of speedsters averaging eight pounds, with the Olympic barges and the live-bait boat visitors at this place recording gunny sack catches daily.

Hourly conveyor boat service to the Olympic barges will be in progress tomorrow night and over the fourth.

BY SOL MEISER

The approaching Irons, those with lotted faces, have various uses for like ending sticking up near the shore. Roughly you either pitch with them or else play a low running ball to the green. In either case different principles of play are involved.

Good golfers can and do play both the pitch and the pitch-and-run. Americans prefer the former, British golfers the latter. Bobby Jones found the latter very handy for his opponent Willie Hunter, then British amateur champion, in their round over a wet course at St. Louis in the 1921 United States amateur championship. Bobby pitched them high. Willie's looked like a mud pile. Willie's looked like a mud pile. Willie's looked like a mud pile. Willie's looked like a mud pile.

The chief difference in these two shots is in the manner of striking the ball. The pitch approach is hit down and forward. The pitch-and-run is hit down and forward. The pitch-and-run is hit down and forward. The pitch-and-run is hit down and forward.

Sol Meiser has prepared a leaflet on some vital points to remember in putting. He will send this to any reader sending him a stamped, addressed envelope. Address The Times.

Cardinals and Cubs Play Tie Game, 11 to 11

ST. LOUIS, July 1. (AP)—The Cardinals and Cubs played a stirring game here today before a ladies' day crowd of 10,000. Each side scored eleven runs before the game was called at the end of the ninth. The Cardinals, who were leading 11 to 0 at the time, were held to a 11 to 11 tie.

TILDEN WINNER AS LOTT LOSES

Enters Semifinal Round at Wimbledon

Chicago Star Defeated by Jean Borotra

Mrs. Bundy Plays Today in Quarter-Finals

(Continued from First Page)

before Big Bill, who last year was carried to five sets by the same player, finally won in four.

Laudry, usually more successful at Wimbledon than on French courts, seemed to return Tilden's shots with unusual ease and at the end of the match the Frenchman was less exhausted physically than the tall American.

The Frenchman was within a point of winning the fourth set, but Big Bill recovered, dived the score, won the game and carried the next two for the set and match.

In the second big semifinal, Lott fell in straight sets before a characteristic display of dashing all-court coverage, spectacular smashes and fiery drives from the racquet of the bounding Borotra.

TIMMER LOSES

Cochet won from Hans Timmer of Holland by scores of 6-4, 7-5, 6-3 in a game which clearly demonstrated the Frenchman's superiority. Only at critical junctures did Cochet produce his best game against the steady, but uninspiring Dutch baseline.

In the fourth semifinal match the youthful Austin scored for Britain over Baron von Kehring of Hungary, 6-2, 6-4, 6-3. Although he is popularly supposed to lack stamina, Austin showed remarkable powers of recovery in winning the second set after trailing at 1-3. Austin has a fine string of scalp in this tournament, having defeated Francis Hunter and Jacques Brugnon, among others, and English fans believe he has a fighting chance against Borotra.

The results were never in doubt, however, after Miss Willis made use of some of the speediest of her drives, ending with one that knocked the racquet from Miss Haines' hand.

In other matches today, Miss Willis and Frank Hunter defeated Mrs. John Hill and G. F. Hughes of England, 6-4, 6-2, in mixed doubles, and John Hennessey, Indianapolis, and Miss Marjorie Morrill Dedham, Mass., were eliminated, 6-4, 6-1, by another English team consisting of R. Malcolm of South Africa and Miss D. Cole of England.

Wilmer Allison and John Van Ryn of the American Davis Cup team, trimmed Jan Kopecky, Czechoslovakia, and E. D. Andrews, former New Zealand, 6-2, 6-4, 6-2.

THREE DRIVERS FAVORED IN BANNING AUTO CLASH

Francis Quinn, Mel Kensality and Jimmy Sharp have been installed as favorites to capture first honors in the feature event at the Banning American Legion Speedway.

This Thursday in the annual July Fourth dirt track program there as a result of their thrilling three-cornered battle Saturday night in the second program of after-dark races staged here.

Although Sharp failed to finish the feature event Saturday night after being forced out in the nineteenth lap with motor trouble until his machine was towed to the pits, he was allowed to start in the third place. Kensality was second.

A number of drivers took first practices spins at Banning today, and plan to continue their circuits until Thursday, when they will clash in a program of events, topped by a feature thirty laps. Banning officials preparing to take care of the attendance Thursday in the history, when they expect the track will exceed even the record of 10,000.

By C. A. V

NEW HEAD OF COURT GETS BUSY
Superior Benches Must be Kept Filled

Judge Craig and Judge Keetch

Judge Craig, the new presiding judge of the Superior Court, started signing orders yesterday. That is not the chief duty of the presiding judge of the Superior Court of Los Angeles county, but it is the one that causes the most work on his fountain pen.

Another important duty is arranging with the judicial council to keep Los Angeles county's fifty departments of the court supplied with judges. It is customary to appoint judges from northern counties where there isn't much business, to fill the local bench.

Judge Keetch, retiring as presiding judge, yesterday assumed charge of the nonjury docket in Department Twelve.

"I wish Judge Craig all success in his new duties," Judge Keetch said. "It is quite an honor to run fifty departments of the largest court in the country, but it's quite a job, too."

Forethought

An extra blanket should be kept in the guest room in case the guest enjoys more covers than some people. It may save the visitor a sleepless night.

Rock Island Occupies New Headquarters

(Illustration on Picture Page)

The new headquarters of the Rock Island Railroad at 818 West Sixth street, opened yesterday, was made necessary by the continued growth of business in Los Angeles and surrounding territory, says E. A. Groves, general freight agent. The new offices are equipped in every respect to handle all needs of the public.

The Rock Island serves fourteen Central Western States, which carry on a tremendous business for Southern California. Freight and passenger service operated between Chicago, St. Louis, Minneapolis, Memphis and other eastern gateways by the Rock Island in connection with the Southern Pacific Railway accommodates important shipping interests as well as the traveling public.

AIR EXPRESS MAKES NEW RAIL TIE-UP

Pennsylvania System Will Book Travelers Via Plane from Kansas City

The Pennsylvania Railroad, operating fast trains out of New York to Chicago and St. Louis and making close connections for Kansas City, has made an agreement with Western Air Express to route such of its passengers as desire over the Kansas City-Los Angeles line of the local air transport company. It was announced yesterday by Frederick Webb, district passenger agent of the Pennsylvania, with offices at 318 Van Nuys Building.

This makes the twenty-first railroad to enter into such a compact with Western Air Express and provides an unlimited variety of air-rail service to and from Los Angeles to all sections of the United States, according to transport officials.

Forty-five hours' traveling time between Los Angeles and New York and vice versa is possible through the Pennsylvania-Western Air Express hook-up, Mr. Webb declared.

A California-bound passenger can leave New York on the Pennsylvania at 6:15 p.m., arriving at St. Louis at 5 p.m., the second day. Sleepers on the train for Kansas City departing at 11:55 p.m. are open about 9 o'clock and the passenger arrives in Kansas City at 7:30 a.m., in plenty of time to catch the 8:30 a.m. plane for Los Angeles, arriving here in about four hours.

Another connection of the Pennsylvania is at Chicago, where the traveler is switched over to the Burlington, arriving in Kansas City at 7:30 a.m., in plenty of time to catch the 8:30 a.m. plane for Los Angeles, arriving here in about four hours.

Telephone Company's Men Shift

M. L. Stannard on Job as Division Manager Due to Manning's Moving Up

M. L. Stannard yesterday took the position of division manager of the Southern California Telephone Company following the appointment of E. E. Manning to the position of assistant to the general manager.

As division manager Mr. Stannard now heads the Los Angeles telephone business and is in direct charge of all matters pertaining to the telephone service of the city. With experience in the telephone business covering three decades Mr. Stannard started as a night operator in Springfield, Mass., in 1900, when there were fewer telephones in the entire country than there are in California today.

In recent years he has been occupied with problems in connection with forecasting the rapid growth of Southern California communities and other highly technical engineering matters.

Mrs. Stannard is president of the United Daughters of the Confederacy, California division.

As assistant to the general manager, Mr. Manning succeeds E. D. Wise, who has taken the position of general plant manager of the Pacific Telephone and Telegraph Company, central area, with headquarters at San Francisco. Mr. Manning was division manager of the company but a short time and the vacancy made by Mr. Wise made the reorganization necessary.

Succeeding Mr. Stannard, T. J. Harris will take the position of general commercial engineer. His position as sales engineer will be filled by H. W. Seidel. Mr. Seidel's position as special studies engineer was filled by H. V. Harris. This vacancy was filled by K. D. Schwab.

Foreign Wars' Veterans' Chief Given Luncheon

On a national tour of inspection of the various posts of the organization, Eugene P. Carver, commander-in-chief of the Veterans of Foreign Wars, was entertained in Los Angeles at a luncheon given yesterday by Shannon Crandall, president of the Los Angeles Chamber of Commerce.

Fifty veterans, members of the posts in Los Angeles and near the city, attended the luncheon to do honor to their chief. Arriving in the city from San Diego by airplane, Commander Carver was met by a delegation headed by William A. Allen, assistant national patriotic instructor with headquarters here. Gen. W. P. Story, commander of the California National Guard, represented the Army at the luncheon.

MR. AND MRS. BEKINS START EUROPEAN TRIP

Mr. and Mrs. Milo Bekins left Los Angeles yesterday for an extended tour of Europe. Mr. Bekins is president of the Bekins Van and Storage Company and affiliated companies. They plan to stop over at Omaha, Sioux City and Chicago, arriving at New York to sail on the Majestic the 10th inst. Mr. and Mrs. Bekins will disembark at Plymouth to spend two weeks in the British Isles, following this with an auto tour of France and Switzerland and a visit to the International Exposition at Barcelona. They will return to America September 15.

Fight Following Gang Invasion of Party Quiz Topic

Deputy sheriffs yesterday were endeavoring to untangle the circumstances surrounding a free-for-all street fight in front of 3862 Ellison street, City Terrace, in the early hours of last Sunday morning, which resulted in one participant receiving a cut under the eye with a pair of brass knuckles and his scalp split with a rock.

According to the report of Deputy Fletcher, Davis and Uzzell of the Belvedere substation, Phillip Dank and his family of the Ellison street address, were entertaining Gregory Bonselet and Ben Twiss, the party also attended by Wilma and Marie Evans, sisters, of 1892 South Soto street.

Two boy friends of the Misses Evans, say the deputies, came to the house and asked them to leave and go to the beach, and when this met with refusal, they returned later with a "gang," numbering close to twenty youths. Throwing

STRICT WARNING ISSUED ON SHOOTING FIREWORKS

If you are thinking of discharging fireworks for the Fourth of July in Los Angeles, you had better be careful what kind of fireworks you have in your possession because you are liable to run afoul of the law.

Safety first, cautioned Fire Chief Scott yesterday as he told of the laws governing fireworks. The prohibited fireworks include all articles that travel about the surface of the ground during discharge. Firecrackers, blank cartridges, Roman candles, skyrocket, sons-of-guns, torpedoes, crackit-sticks, devil-on-walk, snakes, snake nests, bonfirecrackers and all articles containing gunpowder are on the prohibited list.

Articles commonly known as sons-of-guns, devil-on-walk, crackit-sticks and the like, in which powder description close to frame structures or near dry grass, the Fire Chief warned.

Avoid using cheap toy cannons, pistols and the like, in which powder cartridges or charges are used. Be careful where you throw burning matches and be sure to trample all sparks.

Chief Scott requests the cooperation of all citizens in promoting the observance of the law regulating the sale and use of fireworks in the city of Los Angeles in the hope that this week's celebration of Independence Day will not leave in its wake a list of maimed children and homes ruined by fire.

IMPROVEMENT SOUGHT

A petition asking for the improvement of Carmelita avenue and other streets between Beverly and San Vicente boulevards was received by the Council yesterday and referred to the City Engineer and Public Works Committee.

Deputy Sheriffs Allen and Penpraise are investigating.

Nigh's Divorce Lawyers Argue on Kick Charge

Attorneys in the divorce case of Mrs. Cilia Nigh against William Nigh, film director, argued at considerable length in Superior Judge Dooling's court yesterday regarding the admissibility of evidence that Nigh kicked Mrs. Nigh in the stomach.

According to Nigh's attorneys, Mrs. Nigh had lived with her husband after the date of the asserted kick, so it was not admissible as evidence. Mrs. Nigh's lawyer said it could be considered as part of a continual chain of cruel circumstances.

Nigh, whose legal name is Emil Kruschke, is accused of being overfriendly with Jean Jarvis, film actress, over whom Kruschke and Edward Usher, Jr., football star, are said to have fought in Laurel Canyon last year.

200 Sleeveless Crepe Dresses, \$11.75

Again this special pricing of 300 fine Crepe Silk Dresses! The sort you will want to wear if you are spending the Fourth casually at the beach... on the tennis court! Sunbath and Dresses with smart little tailored collars, V neckline collarless types, too.

A New Felt Hat, \$5 for the Holiday!

Grograin ribbon is newly used on some of the little brimmed Felt Hats in this group! One has a graceful flat bow on top of brim, another bow under the brim. A second uses ribbon loops interestingly. Another has unpressed sunburst tucks on the side-brim. A fourth shows the brim turned back. The soft draped brim is another idea. In fact, brims effect drama, while crowns remain molded to the headline! White, Eggshell and Bright Colors! Hats of real smartness, for \$5.00!

Lower Price Millinery Section, BULLOCK'S, Third Floor, Hill

Sleeveless Dresses Honan Pongee, \$5.95

Again this popular dress advertised at this little price! The Sleeveless Honan Pongee Dress for The Fourth! The model sketched shows interesting chevron stitching on the bodice, while the skirt is box pleated! Bow treatment at the round neckline marks the smartness of another style, whose waistline is held in slightly by a stitched band, bow trimmed. The skirt is front-pleated. An exceptional quality Honan Pongee was used in their making. White, Maize, Green, Blue, Rose, Orchid. Sizes 14 to 40. Just 200 in this feature event at \$5.95.

Morning Dresses, BULLOCK'S, Fourth Floor, Broadway Building

Bright Footwear Reduced! . . . \$8.85

Again today . . . just preceding The Fourth, this special reduction on Women's beautiful Bright Kid Footwear Fashions! Cut-out one-strap Ties in bright Blue, Red, Green! Diagonal Strap Pumps in Wood Violet! Three-eyel Oxford Tie with decorative air-cool perforations . . . Red, Blue, D'Orsay Pumps in Wood Violet, Red, Green or Blue! And in addition Pumps of many styles in Sun-tan Beige and Slate Kid! Prices were formerly much higher. Today's price fractional at \$8.85.

HIGH LIGHTS OF HISTORY 1382

The Story of the World War 152—Proposed American Zone of Operations.

by J. CARROLL MANSFIELD

AFTER DECIDING UPON A PLAN OF ACTION FOR THE AMERICAN FORCES IN FRANCE, GENERAL PERSHING CONSULTED THE ALLIED CHIEFS UPON THE QUESTION OF A ZONE OF OPERATIONS FOR THE AMERICAN ARMY ON THE WESTERN FRONT.

IT WAS AGREED THAT THE AMERICAN ARMY WHEN READY SHOULD TAKE OVER THE FRONT FROM VERDUN TO THE SWISS BORDER. THIS WAS THE LOGICAL SELECTION AS THE BRITISH WERE OBLIGED TO FIGHT NEAR THEIR BASES ON THE CHANNEL AND THE FRENCH HAD TO COVER PARIS.

THE ESTABLISHMENT OF THE AMERICAN ARMY ON THE ALBANY-LORRAINE FRONT WOULD ALLOW IT TO BE SUPPLIED FROM THE COAST WITHOUT ITS LINE OF COMMUNICATION CROSSING THOSE OF THE FRENCH AND BRITISH, WHICH WERE ALREADY CHOKED WITH TRAFFIC.

THEN, TOO, THE AMERICANS WOULD HAVE A CHANCE TO STRIKE A DECISIVE BLOW AT THE ENEMY FROM THIS SECTOR, AS A DEEP PENETRATION TOWARD METZ WOULD GIVE THE ALLIES POSSESSION OF THAT REGION, AND CUT THE LINE SUPPLYING THE GERMAN ARMIES IN THE WEST.

ANDREWS SEEN AS ELKS' HEAD

Fanning Predicts Election of Atlanta Lawyer

Georgian Not Opposed for Grand Exalted Ruler

East Expected to Get 1930 National Convention

Walter Pemberton Andrews, prominent attorney of Atlanta, Ga., will be elected Grand Exalted Ruler of the national organization of Elks at their convention here next week. It was conceded yesterday with the arrival in Los Angeles of Joseph T. Fanning, Past Grand Exalted Ruler, editor-in-chief of the Elks Magazine, and one of the foremost figures in Elksdom.

Andrews' candidacy is apparently unopposed and his election at the Grand Lodge meeting next Tuesday in the Biltmore can be anticipated beyond a doubt, said Fanning, after his arrival with Mr. Fanning aboard the steamship Mongolia at San Pedro yesterday morning.

GEORGIA LAWMAKER
The unopposed candidate for the highest office in the Elks' organization is a graduate of the law department of Washington and Lee University. He began the practice of his profession in Atlanta in 1891, and since that time has been a member of both the upper and lower houses of the Georgia State Assembly. President Wilson appointed him commissioner-general to the Mediterranean and Balkan states in 1913, in the interest of the Panama-Pacific Exposition in San Francisco.

Andrews joined the Atlanta Lodge of Elks in 1904, and was elected Exalted Ruler of that organization in 1910. In 1911 and 1912 he was appointed to the judiciary committee of the Grand Lodge, and in 1924 as justice of the Grand Forum. At present he is serving as Chief Justice of the Grand Forum. His name will be presented at the Grand Lodge meeting Tuesday by the Atlanta delegation, who, according to information, will arrive here in full force to celebrate Andrews' election.

EAST TO GET CONVENTION

When elected, the Atlanta lawyer will succeed in office Murray Hulbert, present Grand Exalted Ruler of the Elks, and acting Mayor of New York City as President of the Board of Aldermen during the long illness in 1921 of Mayor John F. Hylan. Hulbert was elected Grand Exalted Ruler last year at Miami, Fla.

Fanning also indicated Atlantic City, N. J., as the outstanding contender for next year's convention of the Elks.

"Atlantic City's invitation was the first one received and will be given due consideration," said the Elks executive. "It is safe to say that the convention will be held in the East somewhere."

Fanning also discussed various other topics of interest to members of the order.

MEMBERSHIP GROWS

The membership of the Elks throughout the country now exceeds 800,000, and there is no indication of a decline. Virtually every lodge being established or already functioning in every city of more than 5000 population, he said. Approximately forty new lodges were organized during the last year, he added.

The Elks' Magazine, a success since its authorization at the Elks' convention held in Los Angeles in 1921, continued its growth last year, its editor-in-chief declared.

Its profits of more than \$24,000 last year had resulted in a total profit of \$1,400,000 since it began issuing seven years ago. Of this amount \$350,000 was used for new buildings for the Elks' National Home at Bedford, Va., and other sums will be appropriated for such benevolent work from time to time.

FOUNDATION GOAL NEARS

The Elks' National Foundation, an endowment fund to assist in financing the welfare activities of the order, created at the Miami convention, is rapidly swelling toward the \$20,000,000 goal set for it. Under its provisions lodges will be encouraged to organize state associations and to support and strengthen associations already in existence. Lodges thus grouped and organized will be urged to form plans for carrying on the welfare activity which best meets the needs of the respective communities, and which has the strongest appeal to the members of the respective groups.

The Elks' national foundation trustees, comprising seven members of the Grand Lodge appointed by the Grand Exalted Ruler, are the administrators of the fund, the income from which is available for distribution annually and which will be apportioned equitably with a view to advancing the philanthropic endeavors of the order in every section of the United States and its possessions.

STATE RANKS HIGH
California stands in the foreground among the Elks' organizations both in point of membership and philanthropic work. Fanning declared, and is recognized throughout the order for its splendid work. Mr. and Mrs. Fanning are guests at the Biltmore Hotel and will remain until after the convention, when they will become members of the Elks' party making the trip to the Hawaiian Islands.

Two score of east coast Elks were among the 507 cabin passengers arriving yesterday from New York, Havana and the Canal aboard the liner Mongolia besides Fanning. Among them, Richard M. Davies of Baltimore Heights, Canal Zone, a member of the Grand Lodge committee on credentials, and Thomas A. Leathly, delegate from Balboa Lodge, while others were traveling in unofficial capacities.

"This is the greatest convention city in the world, bar none," declared Mr. Davies. "Everybody down at the Canal looks forward to coming to Los Angeles, but I take increased interest when I am coming here to a convention."

RESOLUTIONS RECEIVED
Resolutions adopted by property owners in the vicinity asking for careful consideration of the acquisition of Arroyo Seco Park, No. 2, with a referendum among the people included in the assessment district, were received by the Council yesterday and referred to committee.

They Hold Convention Spotlight

Ready for Antlered Herds to Meet
Above—At left is Murray Hulbert of New York City, present Grand Exalted Ruler of the Benevolent Protective Order of Elks, and at right is Col. Walter P. Andrews of Atlanta, who is slated to succeed Mr. Hulbert. Below—Mr. and Mrs. Joseph T. Fanning, Mr. Fanning is Past Grand Exalted Ruler and now editor-in-chief of the Elks Magazine.

PAGEANT TICKETS GO FAST

S.R.O. Sign in Prospect for Feature Events of National Elks' Convention

A warning to those who intend to view the parade, night polo game and electrical motion-picture pageant, feature events of the national Elks' convention scheduled for the 11th inst., to obtain their tickets early was issued by officials of the convention yesterday as heavy ticket sales indicate many late applicants may be disappointed.

It was pointed out that during the Shrine convention every seat in the Coliseum was filled and many were turned away, and an even greater influx of visitors this time will create a greater demand for the same number of seats. Tickets for the parade, night polo game and the 11th inst., to obtain their tickets early was issued by officials of the convention yesterday as heavy ticket sales indicate many late applicants may be disappointed.

LODGES TO COMPLETE
More than 10,000 Elks will march in the grand dress parade, garbed in historical costumes, the lodges competing to achieve the honor of having the outstanding appearance. Huge batteries of powerful lights will illuminate the Coliseum when Hal Roach leads his Uplifters' Club polo team against the Buccaneers, captained by R. L. (Snowy) Baker.

THE MOTION-PICTURE PAGEANT
The motion-picture pageant, climax of the program, is unequaledly guaranteed to eclipse anything of the like ever presented. Virtually every East Coast during the Shrine convention has been reconstructed and equipped with new lighting effects. The only one left untouched were the prize-winning creations entered by Harold Lloyd, Radio-Keith-Orpheum and Warner Brothers studios.

Both the Shrine and the Elks' pageant, is confident that the experience gained in presenting the Shrine show will lead to a more finished performance at the Elks' carnival. The grand marshal of the pageant will be Monte Blue, while Frank M. Murphy, electrical engineer, again will supervise the lighting effects.

Funeral Service for Mrs. Futer to Be Tomorrow

Funeral services for Mrs. Mary Helen Futer, 60 years of age, philanthropist, will be conducted tomorrow at 2 p.m. at the W. A. Brown funeral chapel, 1815 South Flower street. Interment will be in Inglewood Park Cemetery.

Mrs. Futer was actively interested in civic and welfare development in Erie, Pa., for thirty-five years. She was donor of the large tuberculosis sanatorium of this city. Her husband, Jacob B. Futer, whom she leaves, was a mortician in Lancaster, Pa., for many years.

Mrs. Futer died Sunday from a heart ailment at her residence, 2029 West Thirtieth street. She was born in New York. She was a member of the First Congregational Church and of the Order of Eastern Star.

Besides her husband, Mrs. Futer leaves two daughters, Mrs. Francis Gillespie, secretary of the Board of Health of Harrisburg, Pa., and Mrs. Edna Rockefeller, secretary of the compensation bureau of Harrisburg.

Cascades Club Holds Opening

Festivities in which screen players and others participated last night marked the formal reopening of the Cascades Beach Club of Santa Monica, formerly known as the Edgewater.

Last night's frolic, arranged by J. Ward Cohen, culminated a week-end of water sports and other festivities for former members of the Edgewater and Cascades Beach clubs, comprising the membership of the Cascades and their guests.

CITY LIFTS CLOUD FROM LAND TITLES

Abandons Historic Ditch Rights to 30,000 Parcels in Old Rancho San Rafael

Lifting the cloud from the title to more than 30,000 parcels of land, thereby saving property owners in excess of \$1,000,000 in land-title fees, the Department of Water and Power yesterday recorded a declaration of abandonment to open ditch rights in the historic Rancho San Rafael, which embraces Eagle Rock, Garvanza, parts of Highland Park, La Canada, Flintridge and Glendale.

Until the voluntary action of the department title to every parcel of land within the confines of the rancho was restricted by the early water grant.

An open-ditch right was granted the city in January, 1878, by the thirteen owners of the Rancho San Rafael. The rancho was one of many famous ranches granted by the King of Spain.

Part of the original ditch was known as Zanja No. 9. It was an important link in the irrigation system started with Zanja Madre, or the mother ditch near the Pismo. Although the ditch has long since been replaced by modern facilities, it has continued to remain a part of the city's water system.

The Rancho San Rafael was regarded in the early days as one of the richest pieces of land in the Southland.

"Action of the Department of Water and Power in abandoning the open-ditch rights in Rancho San Rafael property was purely voluntary," said H. A. Van Norman, general manager of the Department of Water and Power. "We want the owners of property in that territory to enjoy the benefits of clear title as far as this ditch right is concerned. So long as the open-ditch right hung over the property each individual owner would have been put to extra expense before he could sell his land or erect buildings thereon."

The action of the city in abandoning its right to the ditch harks back to the time when a few miles of ditch delivered water to consumers. Today the municipal water system requires 3000 miles of water mains to serve a city of 440,000 people with inhabitants of 1,300,000 persons. Water is delivered to the outskirts of the city through the world-famous 250-mile Aqueduct, which winds its way from the High Sierras across the desert to Los Angeles.

Past physical pain and mental anguish can have no part in the deliberations of the State Industrial Accident Commission in awarding compensation for injuries sustained by a workman. This was the gist of an opinion handed down yesterday in Division 1, District Court of Appeals here.

The decision grows out of an appeal by O. M. Ansbach from an order issued by the Industrial Accident Commission, cancelling a portion of the compensation originally awarded Ansbach for injuries received while at work. The amount of the compensation cancelled was equal to the amount he received from a surgeon whom he sued for malpractice growing out of the injury case.

In his suit, which was settled out of court for an unnamed sum, Ansbach charged physical pain and mental anguish, and the Appellate Court held that this was included in the settlement obtained by the injured man from his surgeon and that it could not be taken into consideration by the accident commission because it was past pain and anguish. The opinion was written by Justice Houser, with Justices York and Conroy concurring.

ESTATE CHANGE MADE

Affairs of Boston Lawyer Turned to Public Administrator

The estate of George Channing Lawrence, Boston attorney, was placed in the hands of the public administrator by Superior Judge Crall in probate court yesterday.

Mrs. Katherine Manhart, Beverly Hills housewife, previously had been removed as administratrix on complaint of Mrs. Lucy Whipple, an aunt of the decedent. Mrs. Whipple, asserting a diversity of interest between her and Mrs. Manhart, said she had given Lawrence money to invest before he died. No trace was found of this money in the records, it was said.

AIR-RAIL BANQUET TODAY

Transportation Heads Will Meet at Biltmore for Chamber of Commerce Event

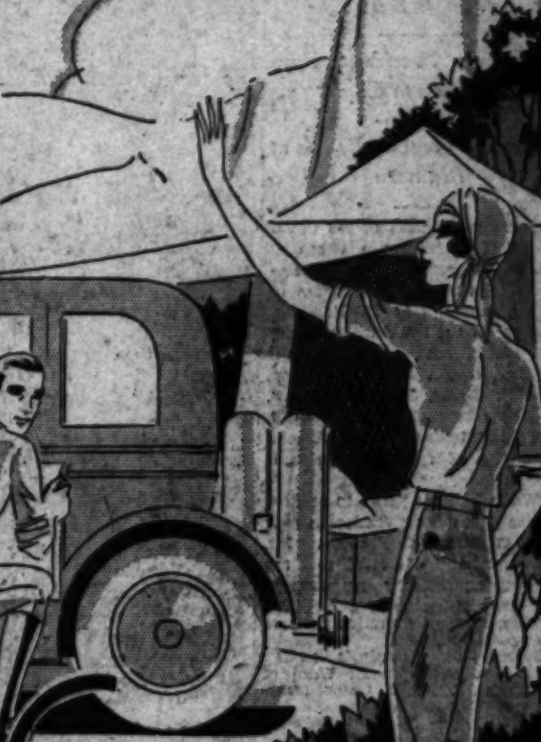

Leaders in the world of air, rail and water transportation will gather today noon at the Biltmore for a banquet and meeting in celebration of the inauguration of forty-eight-hour air-rail service between Los Angeles and New York, scheduled to start over Transcontinental Air Transport from the Grand Central Air Terminal on the 8th inst.

More than 400 transportation heads have made reservations for today's luncheon under the auspices and in the lecture room of the Chamber of Commerce. President Shannon Crandall of the chamber will preside and John Bowers will act as master of ceremonies.

SPEAKERS ANNOUNCED

W. B. Mayo, chief engineer of the Ford Motor Company, is scheduled as one of the major speakers. Karl Lange, veteran lighter-than-aircraft pilot in charge of operations of the Goodyear airship, will speak at 8 p.m. Maj. C. C. Mosley will talk on behalf of Transcontinental Air Transport. Dress rehearsal flights over the forty-eight-hour line are being carried on in preparation for the first scheduled take-off, with Col. Angeles and southern California.

RADIO COLLEGE PLANS STUDIED

Promotion of Study Being Surveyed by Experts

Much Good Already Done by Such Broadcasts

Federal Committee Seeking Data on Results

BY DR. RALPH L. POWER

This radio will be a powerful force in motivating study and in stimulating interest in study, even if it should not prove a satisfactory method of teaching subject matter, seems to be the belief of many members of the advisory committee on radio education which was appointed by Secretary of the Interior Wilbur at its initial meeting recently.

Scores of institutions and school organizations have experimented with radio as a medium of instruction. The results have been, perhaps, a trifle difficult to measure, although the possibilities generally are conceded to be tremendous. A thorough study of the entire question is contemplated by the appointed committee.

FUNDS FOR STUDY
The group took steps to raise \$25,000 to finance the investigation. It proposes to submit a report at

Summer Session, July 5—Sept. 1st
SPECIAL NOTICE
Col. Thos. A. Davis, Pres., will be at the Alexandria Hotel, mezzanine floor, Friday and Saturday, June 5th and 6th and will be pleased to meet parents regarding his school.

The Summer Session offers unusual opportunities for valuable reviews or advanced classes during mornings and for surf bathing and other sports in the afternoons. \$200 will cover practically all expenses except uniforms and text books.

The largest private school west of the Mississippi River.
Jr. Unit Reserve Officers Training Corps. Member Association of Military Colleges and Schools of the United States.
For Catalogue Address: COL. THOS. A. DAVIS, Box T, Pacific Beach, Calif.

URBAN ACADEMY SUMMER CAMP
Seaside Hotel, Pacific Beach, an ORGANIZED vacation in an ideal location. Backed by 30 years' experience. Riding for every boy. Pack Radio Room. Swimming, Fishing, Water-skiing, Billiards, All sports. Complete Staff. Day and Night Supervision. Senior and Junior Sections. Catalog, 627 Wilcox Ave., GL. 4181.

PATIENT WIFE DIVORCES DISAPPEARING HUSBAND

A story of a woman's married life covering a period of forty-three years, with only seeing her husband twice after the first five years of marriage, was revealed yesterday when Mrs. Eva Levenson appeared before Superior Judge Baird and was granted a divorce from Harry Levenson, also known as Harry Fischer, on the grounds of desertion and nonsupport.

Mrs. Levenson told Judge Baird that she married Levenson at Breslau, Russia, in 1886. Afterward they emigrated to the United States and settled at Cleveland, O. Three

children were born to the couple. Allen, now 37 years of age; Ida, 28 and Joe, 41. After living together for five years, Levenson left his family and they did not see him again for thirteen years.

When Levenson returned in 1924, Mrs. Levenson said, he wanted to live with her and she again refused. He disappeared again and as the years rolled by and they heard nothing more of him they thought him dead.

Six weeks ago Levenson showed up again. Mrs. Levenson, however, had filed suit for divorce and came into court yesterday and got it.

FACTS TO THE SECRETARY OF THE INTERIOR
Not later than January 1, 1930, for the scope of radio instruction. The survey is planned to set to date with something perhaps about its highly significant features. It is intended to describe actual programs, together with methods and costs. Methods for recording educational activities which make use of radio are scheduled to be included, also.

Supplementing the study of facts will be research in the possibilities of further utilization of radio by a committee which will make an attempt to measure, if at all practicable, the results already accomplished.

COMMITTEE NAMED
An executive committee, with the United States Commissioner of Education as chairman, was constituted to correlate the activity of the several subcommittees and to prepare recommendations for action by the advisory committee as a whole.

Members of the committee include Dr. H. Robinson Shipstead of New York; Dr. W. W. Charters, Ohio State University; M. H. Aylesworth, National Broadcasting Company; James Moyer, Massachusetts Department of Education; James B. Zehner, University of Virginia; William S. Paley, Columbia Broadcasting System; Miss Olive Keith, Radio Corporation of America; and Mrs. Howard Moorehead, Foreign Policy Association, New York.

PROJECTED PLANS
Approximate of this topic of radio education, word seeped out of New York yesterday that the organization committee has been named for a "national radio college" with temporary quarters at 123 East Fifty-second street.

The moving factor is J. D. R. Freed, president of the Freed-Elsmann Radio Corporation of New York City.

It is projected that various stations co-operating will broadcast one period an evening for those who are unable to attend campus college. Freed anticipates the support of stations and colleges.

The complete details are not yet ready for release. The plan, however, apparently is to resemble the process by which students go from

one room to another at regular intervals.

MANY STATIONS
When one classroom lecture or laboratory period is over, the students would tune in to another station for the next broadcast. The radio Atopia calls for students checking in at each lecture through different code words at the beginning, middle and end of each lecture. This seems practically hockey proof.

Supervised examinations eventually would lead to the academic degrees of A. B. and B. S. says the organization committee. Just what State would issue the diplomas was not disclosed.

Unquestionably a terrific future would be created in offering "campus" degrees for work done wholly in absentia. It seems to the three radio college given over an individual station or through a chain is burdensome enough from the point of administration. The Freed plan, by using more than 100 different stations, independently and without being hooked-up, would magnify the difficulties to an almost insurmountable degree.

In other words, it doesn't seem to be in the cards that the plan will work out even if it is adopted.

Driving Pupil Seized After Fatal Wreck

John Pratt, 55 years of age of 4711 South Wall street was arrested and booked on "suspicion of manslaughter" following an automobile collision yesterday at Fifty-third street and Broadway, in which Leroy Hamblet, 23, of 307 East Forty-ninth street, was killed.

Pratt, who was driving the machine that crashed into young Hamblet's car, is said to have been taking his second driving lesson from Verne E. Randolph, who accompanied the "student driver."

Randolph, according to the police report, asserted that when he saw the collision was imminent he set the emergency brakes on Pratt's car, but too late to prevent the crash.

Broadway Chinese Seized
When Anna May Wong, the motion-picture actress, appeared in London recently in "The Circle of Chalk," written by an unknown Chinese author 600 years ago, Londoners liked the Chinese plot, the Chinese music and the Chinese setting, but declared that the Broadway accent to the star's Chinese did not fit into the production.

'Sugar-Nose' Letter Good for Divorce

"Sugar-nose" as a term of affection was given official recognition in Superior Judge Rosenkrantz's court yesterday, when Anna Brown was divorced by her husband, Frank R. Brown.

The affectionate term was the salutation of a letter received by Mrs. Brown from John Honey, and was included in the exhibits filed with the case. The letter mentioned an inclosure of \$25 as a "love offering."

According to an attorney "sugar-nose" is an appellation of endearment in some parts of the country, presumably descriptive of freckles the color of brown sugar.

In contrast to this endearment term Brown testified that his wife called him a "tub of mud."

Bank Arm Buys Exchange Seat

Union Company, investment arm of the Union Bank and Trust Company, has purchased a treasury seat on the Los Angeles Stock Exchange for \$150,000, a price equal to the highest on record, Carl P. Miller, secretary and manager of the exchange, announced yesterday. Louis J. Meyer, Jr., of the investment company, was elected to membership.

The admission of this company to the exchange makes a total of five investment companies, controlled by banks, who have a seat on the exchange. The others are Security First National Company, Citizens National Company, America Investment Company and the American National Company.

A flannel cloth moistened with turpentine will remove water spots from a waxed floor.

ARLEN'S STARRING YARN CHOSEN

Gregory LaCava Signs With Pathe for Term of Years; Fox to Make "Cameo Kirby" as Movietone Musical; Alice Day Takes Ingenue Lead in Color Film

BY GRACE KINGSLY

Maybe you have been wondering what Richard Arlen's first picture under his new starring contract with Paramount will be. If so, your thirst for information may be satisfied right now.

B. F. Schulberg announced yesterday that that starring vehicle will be "The Lost God," adapted from a short story in John Russell's "Where the Pavement Ends."

George Abbott, that brilliant director-actor, will direct. He is now busy on the adaptation and dialogue.

Abbott at present has no less than two plays to his credit in town, both hits. He co-authored "Coquette," which has been running for the past season in New York, and which started last night at the Belasco, and he is also co-author of the play, "Broadway," the talking film adaptation of which is on view at the Belasco.

The beautiful Fay Wray will be Arlen's leading lady in "The Lost God."

The story is a South Sea Island yarn, and a notable feature of the picture will be some color photography taken during the striking scene in which the hero, as a pearl diver, walks on the bottom of the sea.

PATHE IS SIGNING
DIRECTOR FOR TERM
Gregory LaCava has just signed a long-term contract with Pathe, we learned yesterday.

The director to make a series of pictures for the above organization, all of which will, of course, be talkers. Some of them also will be outfitted with color photography effects.

LaCava is the director who guided Corinne Griffith's artistic footsteps in "Saturday's Children." The story of a boy's life, the picture will be a special, and stories are now being secured for him.

"Cameo Kirby" as Musical
That good old stand-by of the Fox studios, "Cameo Kirby," is to be taken out, dusted off and made into a Movietone musical production, we hear. As you will remember, Jack Gilbert starred in the picture several years ago, when it was given as a silent film.

It looks as though "Cameo Kirby" was built to go musical, what with its Mississippi River effects in the way of scenery and the dancing and songs, its picturesque period, and its romanticism.

It has been rumored that Raoul Walsh will direct, but this is far from certain, according to word just received, which is to the effect that John Ford will have that honor.

Norma Terris and J. Harold Murray are to star in the picture. Miss Terris, you remember, was the girl in "Show Boat," the stage, while Murray sang the lead in "Rio Rita" in New York.

Song Writers in Person
Perhaps you have been wondering how some of your favorite songwriters look. You are going to have a chance to find out when "Song Shop," Metro-Goldwyn-Mayer's new musical, reaches the screen.

Fred Fisher is to appear and give "Dardanella," one of the most popular songs he has ever known.

Raymond Knapp will play the "Japanese Sandman" with Myrtle McLaughlin singing the words. Gus Edwards will be heard in "School Days." Dave Dreyer will play "Me and My Shadow," with Cy Kahn singing. Roy Turk and Fred Ahlert, who wrote "Mean to Me," will also appear.

Grocers of East to Visit Here
Two trainloads of New York and New England retail grocers are due in Los Angeles at 9 o'clock tomorrow morning over the Southern Pacific. The grocers are under the guidance of Frank Meyer of New York, representative of the Fleischmann Meat Company, and also touring California after attending the annual convention of the National Association of Retail Grocers at Portland last week.

In Los Angeles they will be entertained by the Southern California Retail Grocers' Association and tomorrow evening a dinner-dance will be given them at the City Club. They will be taken on a tour of the city and environs tomorrow afternoon. They will leave Los Angeles Thursday.

According to Irigoin, the man may have either been in the canal or murdered, his body thrown off the ledge. The finding of the skeleton can climax to a series of news items which began last Friday with Elektra Henderson of Miami painfully injured when the bile she was driving

Caleco's municipal water from the Briar Canal and to repair the bridge it was sary to cut off the supply for days. Water happened to be in the city's settling basin, but a shutdown came and as a result, Mexicans spent eight hours a day with their domestic supply cut off entirely and the temperature at 110 deg. While suffering from the shortage, a number of local residents became ill.

American Ambassador
Stressed

Labor Regina La
With Good Will To
United States

Hein Heartily A
Proposed Visit
MacDonald

LONDON, July 2. (AP)—The need for improved relations with the United States, operating with the greatest urgency in seeking a permanent end of the disarmament of the new Labor party, directed by Ramsay MacDonald, launched its program for the formal opening of the movement.

The motion was marked by one of the utmost importance two outstanding leaders of the movement, Premier MacDonald and former Secretary Baldwin, speaking before a large gathering of the Prime Minister and a group of friendship between the Empire and the United States and the closest cooperation of the two governments. MacDonald promised that he would offer no "facilities" to the new party, but declared his party determined to do every thing in its power to change it.

The King's speech, delivered at the request of the Lord Chancellor, called attention to the importance of negotiation of the American Ambassador and the hope that the two Englishmen, working with the United States and other foreign governments, would be able to reach this paramount international and fruitful cause.

The course of the day was devoted to the King's speech, which was read by the Prime Minister about his visit and gave him the opportunity to express his personal intercession of the two countries.

PREMIER RESPONSE
MacDonald, responding to his predecessor's speech with President Hoover at great value, suggested to be continuing at present his trip for trip to Washington. Prime Minister also stated on Page 2, Col.
